

THE HALIBURTON COUNTY ECHO

AND MINDEN RECORDER

Vol. 100

No. 43

Wednesday, June 23, 1982

'The Voice of the Highlands

16 pages

35 cents

Will the weather get any worse?

Can you believe that Haliburton County has not had a cloudless day since May 9?

It's true. The month of June, traditionally dubbed by climatologists the best month to enjoy a vacation if pleasant weather is a priority, has been the wettest since 1973.

Since the beginning of the month 5.87 inches of rain have fallen on the highlands but the record rainfall for June is 8.2 inches which fell in 1969. The Haliburton area climatologist doubts that we will break the record since only eight days are remaining in the month.

Although the rainfall isn't record-breaking for June, 7.96 inches of rain has fallen in the last 28 days which is "most unusual", according to the climatologist. Usually, in June, less than one inch of rain falls.

Rainfall "most unusual"

To make matters worse this month, the sun has shone at least 50 per cent less than it normally does. This has caused little evaporation and created extremely wet soil conditions.

The soil is wetter than it was after spring run-off. In the spring very little precipitation fell in the area.

The weather system responsible for ruining one of the most pleasant months of the year is a high level low pressure centre over Hudson's Bay. Because the pressure system is above 30,000 feet it creates instability and in turn, the thunderstorms the area has been experiencing.

Robertson Lumber's sawmill suffered \$80,000 damage when fire levelled the structure last Thursday. The building, which was not protected by fire insurance, was burning out of control by the time firefighters arrived. It took the 15 men only 12 minutes to bring the scene with a pumper and a tanker truck.

Local sawmill is destroyed in fire \$80,000 damage

A local sawmill was completely destroyed in a blaze last Thursday afternoon. The mill was not protected by fire insurance.

Mel Robertson, owner of the sawmill located just off of Highway 121 East, was cutting with an acetylene torch in the engine room when he noticed the wall behind him was on fire.

Robertson escaped from the mill but the fire was so hot he couldn't shut the door behind him, according to Minden fire chief Deke Jackson. It is believed the acetylene tank exploded and spread the fire.

When the fire department arrived approximately 15 minutes later, the fire was burning out of control. Because the men had the pumper and the tanker with them, and water was easily

Gas blast levels Ingoldsby house

A propane gas explosion demolished the interior, lifted the floors, blew out windows and doors and destroyed antique furnishings and china in Norm Harrison Sr.'s home last Tuesday evening.

Harrison, 78, standing in the livingroom of his two storey house in Ingoldsby, turned up the thermostat on his oil furnace. An immediate explosion sent Harrison and most of the furnishings flying into the air. He was unscathed except for a stiff neck, which he believes resulted from hitting the ceiling.

An investigation by the OPP and the Fire Marshall's Office discovered a copper line leading from a propane tank to a stove lying against a television mast approximately 18 inches below the ground level.

A week previous to the explosion, Harrison's television set had blown out during a lightning storm and investigators theorize a small hole in the propane line was caused by the lightning strike.

The propane is believed to have soaked through the basement wall into the cellar near the oil furnace. When the furnace was turned on the spark exploded the propane fumes.

Because of the extensive damage to the house, Harrison is living elsewhere. He said Thursday that he felt his insurance would cover the accident but was unsure if the house could be repaired.

County's road unlikely to be smooth

Consultant tells council dropping provisional will not cost the county

by PETER McGUINNESS
Echo Staff

Haliburton's road from provisional to full county status is unlikely to be a smooth one.

Ted Foster, a consultant with the Ministry of Municipal Affairs and Housing has been working with the county's budget committee on the status question. He spoke to county council about possible difficulties it may face at its last meeting before summer recess.

Foster told council that he has been investigating the question with an eye to "what would be the implications of such a change in status and, if the change is possible."

He said, "Nothing will take place without council's approval."

Under current legislation, Foster told council, every county must have a court of record and its own jail. He said special legislation could be passed which would waive these prerequisites.

He told council a similar type of legislation had been passed in the case of regional Ottawa-Carleton.

Foster told council the 6 per cent educational grant the county board of education receives is not in-

cumbent on the provisional status of the area.

"The six per cent grant is a goods and services grant for a semi-northern area," Foster said. "It would continue no matter what the status is."

Councillor Robert Vick said that he was sure the board would lose the grant if the county changed its status. Despite an assurance from Foster this was not the case Vick repeated his statement.

"I don't know who your source is but my source is Dr. Stephenson, the Minister of Education. I'm sure her people are not mistaken", Foster said.

Foster went on to explain the grants are based on the geographic location of a school board. Areas north of the French River receive 9 per cent grants. Muskoka, Parry Sound and Haliburton receive 6 per cent grants.

The grant reflects the higher cost of obtaining goods, services and personnel in those areas.

Vick later insisted on Foster placing this assurance in written form.

Other stumbling blocks for Haliburton in any change of status are the unorganized townships of Lawrence and Nightingale and the Improvement District of Bicroft.

"We've discovered that Lawrence and Nightingale were removed from the townships of Sherborne, McClintock and Livingstone by an order-in-Council dated 1910 and placed in Algonquin Park."

Before the county could be reorganized the townships would have to be returned to Sherborne, McClintock and Livingstone on an administrative basis or removed from the county to Nipissing's jurisdiction. In either case they would remain part of the

park.

Bicroft would also be required to change its status from an improvement district to some form of municipality before the county's status could be changed.

However, Bicroft Councillor Bill Howe told council that steps were being taken to change Bicroft's organization at the present time.

Howe said a public meeting had caused favourable response and the Bicroft council had passed a by-law calling for the district to be

organized into a township.

The by-law must still be approved by the Ministry of Municipal Affairs and Housing. "Hopefully we will get approval in time for the fall municipal election," Howe said.

Councillor Carman Coumbs asked Foster to clarify the question of the county's judicial requirements. He wished to know if the county would have to provide a courthouse and jail.

Foster replied, "Once

there was a county judicial system but that has been absorbed into the provincial court system. It is no longer necessarily the case that you will have to provide these facilities. In any case they would be provincial buildings."

Foster told council that it could expect no fiscal gain from the change in status but it would risk no financial loss from the move.

He noted that Haliburton is the last provisional county in the province.

Anson, Hindon and Minden Councillor Lloyd Walker questioned the merit of changing status. "Is it just change for change sake?" Walker asked.

Warden Ron Gambell asked Walker if he thought the county should remain provisional indefinitely. He noted the term "provisional" had become meaningless to the government.

"Why not stay the same if we've nothing to gain by changing?" Walker asked.

No alternate committee tells council

by PETER McGUINNESS
Echo Staff

The status of County Road 1, formerly Highway 519, will remain in doubt for some time to come since the county roads committee made no recommendation to council on the matter.

The committee had been instructed to consider roads within the county which could be assumed from the Ontario Ministry of Transportation and Communications in return for its re-assuming the administration of County Road 1.

However, roads committee chairman Keith Tallman did not table any recommendations at the final meeting prior to summer recess on June 16.

"There doesn't appear to be anything to trade-off," Tallman remarked to council.

Several councillors remarked they had been given the impression that the roads committee would find a highway which could be assumed into the county road system and that talks would continue between the county and the province on the road question.

Tallman reported the provincial representative said if the county had something to suggest for trade the MTC would be willing to talk. "We're not able to find any solution," Tallman said.

Stanhope Councillor James Harrison said he was sure there was a resolution from council to reconsider the roads question at the time of council's original decision.

In response to comments from Snowdon Councillor Robert Vick, Tallman said, "You keep suggesting we did something under the table."

"It was under the table," Vick responded.

Councillor Murray Fearrey summed up the situation by saying, "We had given a mandate to the roads committee to look at the rationalization for trading a road." He said as far as he could see they had made no recommendation.

"The engineer ought to give road use figures so any

layman can look and make a clear decision."

Fearrey said the engineer appeared to have simply asked the various municipalities in the county how they felt about certain roads being assumed into the county road system.

"The engineer must have roads-needs studies," Fear-

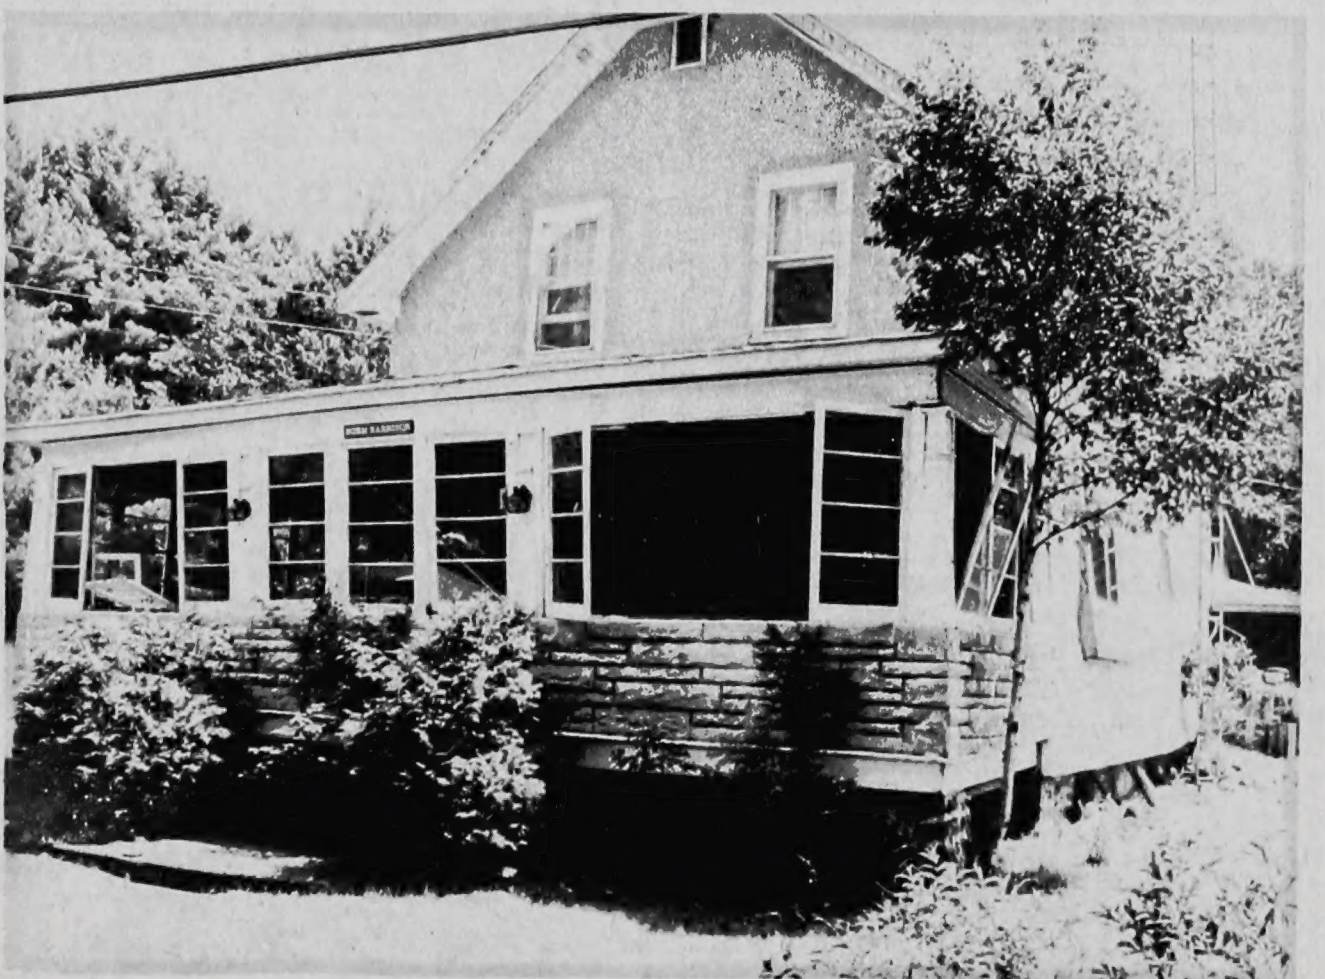

rey said.

Tallman said the council seemed to feel the committee had not done its homework on the road question. "We do have a recommendation. There are no alternatives."

Harrison told council the roads committee was asking council to make any decision on alternate roads. "I sit on

the Hyland Crest committee," Harrison said. "If we decide to dismiss a supervisor we don't come to council for a decision on that matter."

The roads committee is expected to formulate a recommendation for county council on the issue for its next meeting.

Norm Harrison Sr.'s Ingoldsby home was damaged substantially after an explosion Tuesday evening. Doors and windows were blown out, the exterior wall

was shoved away from the foundation and furniture was smashed. Harrison, 78, received only a stiff neck after hitting the ceiling.

Local unit wins accreditation

First unit in Canada to take part in programme

The Haliburton, Kawartha, Pine Ridge District Health Unit became the first accredited public health unit in Canada on June 4.

The accreditation is a strictly voluntary process in which the unit's organization and operation of health programmes and services is compared to its stated objectives.

According to the Ontario Council on Community Health Accreditation (OCCCHA) the accreditation programme evaluates the administration of public health projects and services rather than their outcome. This is based on the assumption that unless a health unit has a sound administration it is unlikely that quality ser-

vice can be provided.

Chief Public Health Inspector of the Haliburton office of the Health unit is Bob MacNaull. He said that the impact of accreditation is "difficult to bring down to a few paragraphs."

MacNaull explained that the process of accreditation involved being judged by other health professionals on basically technical aspects of the unit's operation.

The average individual would see little or no change in the operation of the health unit due to accreditation. However, the fact that a unit was accredited means it is providing a level of service that measures favourably against its stated goals.

MacNaull cited the keeping of comprehensive records

as one of the aspects of the unit that aided it to gain accreditation. The unit keeps all its dealing with the public on file so they can be referred to in the future, if the need arises.

The OCCCHA can issue accreditation for one, two or three years or can refuse to accredit a health unit. In the case of the Haliburton, Kawartha, Pine Ridge Health Unit it decided to issue a two year certificate of accreditation.

At the end of the two year period the unit can apply for reaccreditation.

MacNaull said that the unit's staff were not particularly surprised the unit was not given the three year certification by the OCCCHA.

Briefly ...

Boy nearly drowns

A two and a half year old boy is listed in unstable condition at Sick Children's Hospital in Toronto after nearly drowning in Denna Lake last Wednesday.

After Daniel Chorzepa finished dinner at his grandmother's cottage, he left the cottage unnoticed.

His grandmother, Mary Cudworth, found him within minutes, lying face down in the water past the end of their dock. The boy's grandfather, Donald Cudworth, pulled him from the water and applied artificial respiration, assisted by the boy's mother, Helen Cudworth.

The child was rushed by ambulance to Minden Red Cross Hospital where he resumed breathing. He was transferred to Ross Memorial Hospital in Lindsay and then to Sick Children's Hospital.

Car, and pick-up collide

No one was injured when two cars collided at the intersection of Highway 35 and Horseshoe Lake Road 1, Saturday afternoon.

A 1980 pick-up, driven by Allan Whittington, 17 of Peterborough, received \$1,000 damage to the left rear of the box, while a 1977 Chrysler, driven by Russell Hughes, 44 of RR1 Bridgenorth, was damaged to the amount of \$500 in the front.

Whittington was charged with failing to yield the right-of-way.

Eight accidents investigated

The personnel of the Minden OPP detachment investigated eight motor vehicle accidents during the last week. No people were injured in those collisions.

The staff responded to 57 general occurrences, including seven thefts, seven damage complaints, four break and enters and three assaults.

Rev. John Smith ministers for 25 years

by PETER McGUINNESS
Echo Staff

Reverend John Smith has been the minister of Haliburton's Lakeside Baptist Church for 25 years.

He preached his first sermon on May 26, 1957 and was ordained a minister a few weeks later on July 3. Smith has seen many changes in his years with the Baptist community in Haliburton and has many reminiscences at this point in his career.

"I realized I'd been here a long time a couple of years ago," Smith said. "I married the child of a couple I'd married when I was first here."

Smith came to Haliburton directly after graduating from McMaster's Divinity school. He had given little thought to where he would serve as minister and said that he decided to leave that decision till after graduating, when he could see what was available.

Smith said there have been "a lot of firsts" in the years he has served as minister of Lakeside Baptist. "In 1960, for instance, we built the new church," Smith said. "Prior to that we met at what is now the Western Tire store. That was the original Baptist church, built in 1904."

Smith has also seen the growth of the ecumenical movement and the effect it has on the religious life of a small town in his years here. He says that the local churches cooperate on a

Rev. John Smith

great many things and undertake projects together.

"Maybe the relationship is too good, if you know what I mean," Smith said.

Another aspect of the community that Smith has come to appreciate over the years is, what he calls, the "freedom of the community." One aspect of this is being allowed to visit the area's schools in order to

teach.

"That's a real privilege," Smith said. "One, I think, that all the local ministers appreciate."

Another milestone for Rev. Smith in Haliburton was meeting (and marrying) his wife here. Velma Smith is a nurse of 27 years experience. She came to Haliburton about one year after her husband's arrival. The two mar-

ried in 1960.

The Smiths raised a large family by modern standards. "Two children were born to us, we adopted a family of five and then had another child," Smith said. "That kept my wife busy. Of course I can get out on the excuse of having someone to visit," he said of his experiences as a parent.

Smith admits that it is very unusual for a minister to stay in one location for such a protracted period of time. "There come days when you look around you and wonder if you're in a rut," he said. "You often question if

you're serving much useful purpose. Then someone will come and tell you how much you did for them. I realize things I did or said meant more to them than, seemingly, it meant to me."

Last year Smith felt that in order to be free to relocate, if he feels moved to do so, he should reduce his ties to the community. Consequently he resigned his position with Lakeside church but, at the congregation's request agreed to stay on as their minister.

Smith said he often wonders about his tenure here.

He would not have predicted that he would still be in this community 25 years ago and he said he is unsure where he will be in another 25 years.

"I've no plans for an immediate departure," he hastens to add.

"It's funny," he said. You start to share in the events of a community, the good and the bad, and you become part of the people. It took a few years to break through, now I feel almost like a native."

"It's an enjoyable place to live."

Township opposes hunting with dogs, county supports measure

A resolution from the United Townships of Sherborne, McClintock and Livingston opposing the hunting of bear with large packs of dogs has received the endorsement of county council.

The original resolution was passed by Sherborne, McClintock, Livingstone council in response to a proposed spring hunt by an American club. The group is said to hunt all over North America and use a pack of 20 or more dogs to track the bears.

It was feared that this might be detrimental to deer and moose populations in the area since the hunt would coincide with the fawning season.

During debate on the proposed resolution Councillor Ken Maguire said he felt dogs presented no problem to deer populations in the county. "Those dogs are specifically bear dogs," Maguire said.

Maguire also doubted that large packs of dogs would be used in the hunts.

Councillor Robert Vick disagreed with Maguire and said that he had seen two truckloads of dogs in Maguire's area last year.

Councillor Glynne Lewis said he felt council could have no serious opposition to the motion. Lewis said there was no doubt the dogs could "wreak havoc in the breeding season."

County Warden, Ron

Gambell asked Councillor Fred Baum of Sherborne, McClintock and Livingstone if he did not think the matter was within the jurisdiction of the Ministry of Natural Resources rather than under the county's authority.

Baum replied, "If you wait for the ministry you won't have any deer left in the county." Baum insisted on placing a motion to support Sherborne, McClintock, Livingstone's resolution before council.

A recorded vote was requested and as the Clerk rose and began to call the roll, debate on the motion continued.

Several councillors expressed serious doubts about

the definition of a large pack of dogs. They noted the resolution would be wide open to challenge in the courts as long as the term "large" remained undefined.

Baum insisted on the motion being put to council as it stood. "I have no power to change a resolution of Sherborne, McClintock, Livingstone council," he said.

The Warden called for a show of hands: ten council members voted in favour of the resolution. The Clerk pointed out that a recorded vote had been requested on the issue and inquired as to the status of the vote. She apparently received no answer from the councillors or the warden but the meeting continued.

Local workshop to relocate, renovation to cost \$11,000

ARC industries plans to move into its new workshop in Haliburton village in August.

After the rent at the Northern Campus of Sir Sandford Fleming College increased to \$500 per month in April, the local Association for the Mentally Retarded began to look for another facility.

The association opted to move the workshop to the former Curry Motors body shop on Mountain Street.

Renovations to the building, which the association expects will cost \$11,000, are already underway.

The association's fund-raising events in the past have provided money for this project, according to Linda Easton of the association's board of directors.

She also noted that the low rent which had previously been charged by the college had allowed the association to save enough money to complete the renovations.

Children's summer art programme organized

Instruments, song and crafts mingle as gallery extends services to local children

This summer will be more enjoyable for children in Haliburton County with an exciting new program from the Rails' End Gallery.

In the past, the Gallery has employed a student during the summer months, but this season opted to extend its programs to entertain and educate elementary students.

Originally, the program had been named "Recycling to Recreate" but it now incorporates the talents of students working on the project and the name may be modified to reflect that change, according to the Rails' End Gallery curator, Lucinda St. Pierre.

Wendy Laking, a fourth year Faculty of Music student, will supervise the program. Laking will spend two mornings a week conducting a band practise with children at the Archie Stouffer Public School, in Minden.

Permission was received from the board of education to allow the group use of the

school's instruments if the gallery covered the cost of insurance. The program will cost the school board nothing.

Laking would like approximately 20 children, who are dedicated to music and will allot two mornings a week to the practices.

The classes will be structured but Laking hopes they will be fun. Because it is summer, she hopes to teach popular rather than classical music.

The Archie Stouffer Home and School organization donated \$100 towards the purchase of new sheet music for the program. At the end of the summer the music will remain at the school.

If enough children apply, auditions will be held and all children who qualify will know before school ends this week.

Another section of the program to be implemented if enough interested children apply is a junior choir in Haliburton village. Laking

has considered opening classes to grade 4, 5, and 6 students during the summer.

If both programs are launched, Laking plans to give public concerts with the groups at the end of the summer.

Two, possibly three, days of arts and crafts are planned each week. Marie Chambers, another student hired under the program will be working specifically on arts and crafts, under the direction of Laking.

Carol Lee, who has also been hired for the summer, will assist in the arts program and also perform clerical duties in conjunction with the program and will

greet visitors to the gallery.

Arts and crafts program students will contact business and individuals in the community for "junk" that might be useful in the program. Items many people dispose of could be used by the children in their art work. Items such as plastic containers, cardboard boxes, small scraps of wood, styrofoam packing or other "junk" can be the nucleus of imaginary art, according to St. Pierre.

While one or possibly two mornings may be spent conducting arts and crafts classes at Tall Pines School in Carnarvon where the Haliburton County Association

for Children with Learning Disabilities holds its summer camp, Fridays will be arts and crafts day held near to the gallery in Head Lake Park.

Arts and crafts time will be loosely structured with children allowed to spend the day or an hour. At the end of the summer, an art show might be organized on the boardwalk at the gallery.

All programs are free of charge.

Pressure may bring TVO

Local residents should pressure the Ministry of Citizenship and Culture now to ensure the area will receive TV Ontario (TVO) programming when it becomes available in 1983, according to the regional councillor.

Rhonda Elstone suggested concerned citizens inform the Minister, Bruce McCaffrey, they want assurance that if the signal from the planned Huntsville tower cannot be received here, other alternatives are made available to provide the educational television station in this area.

Elstone said TVO technicians "should" receive broadcasts from the Huntsville tower. The tower should be operational by September 1983.

However, if the broadcasts can't be received, area residents should be on record as having asked for an alternative service.

Because TVO is expected to be on satellite as early as January 1983, Low Power Relay Transmitters (LPRT) which have a very small range, can be distributed in areas not receiving transmissions.

As an example Elstone cited West Parry Sound which was unable to receive transmissions from a tower in Sudbury. Five LPRTs have been installed to provide the coverage.

The LPRTs cut the cost of providing service drastically, from approximately \$1.3 million for a tower to \$25,000 for the relay units.

If citizens wish to press the minister of Citizenship and Culture for assurances the area will receive TV Ontario they should write Bruce McCaffrey, Sixth Floor, 77 Bloor Street West, Toronto.

Galway/Cavendish minutes

At the meeting of Galway/Cavendish council on Saturday, May 27 the following matters were considered:

The general voucher for the month of May in the amount of \$83,488.17 was approved for payment. A term deposit of \$60,000 with the Bank of Commerce formed part of this amount.

The roads voucher for the month of May in the amount of \$28,994.07 and the welfare voucher for the month of May in the amount of \$658 were approved for payment.

The operating procedures of the Galway/Cavendish culture and recreation committee were altered by council on the committee's recommendation. In future meetings will be held at the

Township office on the third Tuesday of each month, and members will be expected to attend nine meetings in any 12 month period, unless a leave of absence is requested by a member and approved of by the committee.

The clerk was authorized to prepare an amendment to the by-law establishing a recreation committee to provide for the chairperson of each culture and recreation sub-committee (Galway and Cavendish) to be a voting member of the Galway/Cavendish culture and recreation committee.

A policy was adopted by council regarding donations to the township. When used articles are donated to the Township a receipt will be issued by the Township office staff, provided that an appraisal of said article is attached.

If articles are donated to the recreation committees to be used for future sales, it will be decided by the committee if a receipt is to be issued.

It was decided that John Windrum and Tim Turcotte be appointed to the Galway Fire Platoon, effective immediately.

Amendments to the sign by-law and the building by-law (By-law 82-20 and By-law 82-21) were read and passed. The council meeting scheduled for Saturday, June 26 at 10 a.m. was changed to Monday, June 28 at 7 p.m.

The amended roads budget for 1982 reflecting the actual supplementary Ministry of Transportation and Communications' funding was received as presented.

The Road Superintendent was authorized to include Harvey Township's 3.5 miles

Please turn to Page 8

The Rotary Club of Haliburton held an 'early bird' draw for a colour television last week. Rev. John James of Haliburton pulled out the ticket of Leroy Lichty of Minden from among the more than 1000 tickets already sold on the 1982 Camaro. Assisting at the draw was Rotarian Brian Black, right.

United Townships adopt budget

There were two meetings of the council of the United Townships of Sherborne, McClintock and Livingstone in the month of May.

The first meeting was held May 3 to prepare preliminary figures to formulate the 1982 Budget and estimate the mill rate.

Over the course of the afternoon each category of budgetary expenditures required for 1982 was estimated and reviewed and tentatively accepted until a mill rate estimate was calculated. Revenues were also considered to formulate the net expenditure for 1982.

Status change is questioned

from page 1

Councillor Glynn Lewis replied to Walker's question by saying putting off the change made sense "only if we want to remain in suspended animation."

"Let's remove the transitional element," Lewis said. Foster will continue to meet with the budget committee on the change in status question.

The regular council meeting was held on May 10 and the following matters were considered:

General accounts were approved in the amount of \$1,561.50.

Council also approved the payment of the first instalment of the 1982 school requisition to the Haliburton County Board of Education in the amount of \$86,906.50.

Council approved a rental fee of \$50 for the application of land use permit for the municipal garbage disposal site, a five acre site located on Part of Lot 5, Concession X111 in the Township of Sherborne for the period from June 15, 1982 to June 14, 1983.

Business taxes and penalties in the amount of \$127 were written off, being uncollectible as a result of a power of sale.

Mr. John O'Neil was reimbursed \$103.84 which represented a duplicate payment of outstanding 1981 taxes and penalties for land located in the Township of Sherborne. These outstanding taxes were paid by the Ministry of Natural Resources.

A by-law was introduced, read and passed for the purpose of setting a Borrowing By-law with the Bank of Nova Scotia, Huntsville Branch, to meet expenditures of the Corporation until the taxes are collected.

Council passed a by-law opposing organized clubs hunting bear with large packs of dogs, being allowed to hunt on land (private or crown) during spring season when deer and moose are vulnerable because they are with young. It had been brought to the attention of council that there is such a club which will be hunting in the Crown and Wolf Lake area in the Township of Livingstone, Provincial County of Haliburton.

The Council requested John Eakins, M.P.P. for Victoria-Haliburton to investigate this problem and a copy of this resolution was forwarded to Provisional Council of Haliburton and Township of Lake of Bays for support.

By-law 856 was passed for the purpose of setting out and levying the 1982 mill rate.

Council accepted the application of John Zilney to caretake the Sherborne and Oxtongue Lake municipal dumps during the summer months of 1982.

Dysart council meets

At the last regular meeting of Dysart et al council on June 14, the following items were discussed:

Dysart council decided to donate \$75 to Hyland Crest Senior Citizens Home for the over 70's dinner.

The following accounts were approved for payment: general accounts totalling \$89,607.92, road accounts totalling \$71,631.04, and social services accounts totalling \$8,774.49.

The application for an amendment to the Official Plan by Robert K. Moeser was approved.

The Clerk was authorized to make application to the Municipal Subsidy Branch, Ministry of Municipal Affairs and Housing for the \$11,175 allocation to Dysart et al under the Ontario Employment Incentive Program.

Council recognized the encroachment and allowed an easement to G. Divell for a 10' x 16' garage on the unopened Road Allowance behind Lot 8, Block "S", Town Plot, and a formal agreement was entered into a \$1 per year subject to removal of the building at council's request.

Council agreed to grant permission to the Royal Canadian Legion to use the arena grounds and buildings on Tuesday and Wednesday, July 20 and 21, 1982, for the Annual Carnival and Community Festival.

Council granted permission for the Haliburton Curling and Squash Club to hold a fund raising dance on June 26, at the Curling and Squash Club.

Council accepted the offer of the Ministry of the Environment of a contribution of \$1,500 towards closing down existing South Bay Dump face and creating new screened dumping area as agreed upon between road superintendent Howard Roberts, and the Ministry of the Environment personnel.

Council recognized the encroachment of Thomas Ventress on the lakeshore allowance and authorized the building inspector to issue a permit to allow a building extension. Ventress agreed to purchase the said allowance as soon as it is available.

Council authorized the purchase of Fireworks on behalf of the Kennis Lake Cottage Owners Association.

Council stated it has no objection to the proposed pond dredging, on Con. 7, Lot 3, Dysart Township, provided the Ministry of Natural

Resources has no objection and that any dredging be done in accordance with Ministry of Natural Resources directions. In addition the pond and down stream water supply must be maintained in accordance with Ministry of Natural Resources letter of permission.

Council granted permission to Vince Connaughan to operate the pedal boats from and under the same conditions as 1981.

Stephen Bowskill was advised that use of any portion of the ball diamond for a ski facility is out of the question because of an already chronic parking situation to accommodate the Arena and Curling Club.

Council granted Skyline Rides permission to fly a hot air balloon under the following conditions in addition to the conditions set down by the Dysart Recreation Committee:

- A Site Approval, approved in writing by the Department of Transport, Ottawa.

- Approval of Air Transport Committee, Ottawa, in writing.

- Written approval from the Ministry of Labour, with safeguards employed to protect with consideration being given to proximity of High Tension Hydro lines.

- Aircraft log must be on site and up to date, specifically - the Certificate of Air Worthiness.

- Pilot must have his log book with him and up to date.

- Proof of Insurance must be on site.

- A minimum of three tethers each have a minimum strength of 6,000 pounds per square inch to be used to tie the balloon - 2 tethers to be tied on the up wind side.

A proper agreement will be drawn by David M. Bishop, Solicitor, encompassing all conditions outlined. All conditions must be satisfied in writing to Mr. Bishop before final approval to fly is

given, and in addition any violation to the conditions set forth is an automatic violation of the agreement and the permission is withdrawn. Insurance must be provided to satisfy municipal insurers and to save and except the municipality from any and all liability.

The road superintendent was authorized to proceed with the demolition of the structure located on Part of Lot 1, Block U, Town Plot of the village of Haliburton owned by Stanley Sawyer. The property is to be left in a graded and levelled condition.

By-law 82-83, a by-law to License, Regulate and Control Recreational Establishments within the limits of the United Townships of Dysart, Dudley, Harcourt, Guilford, Harburn, Bruton, Havelock, Eyre and Clyde, was passed by council.

By-law 82-24, a by-law to amend zoning by-law 77-32, was also passed, as was By-law 82-25, a by-law to adopt the assessment for the year 1982 and levy the taxes.

Council decided to amend by-law 82-21 to eliminate the exemption of two machines, from any of the rules and regulations of the by-law and change the fee to \$50 for each machine for the first two and \$500 for more than two machines.

Council refused Skyline Rides permission for an arcade license to operate at the Sky-Slider Site.

Major fire destroys mill

from page 1

accessible at the mill, they managed to contain the blaze within the building.

Equipment and lumber in close proximity to the mill were saved from the blaze. The firefighters were on the scene for four hours.

The damage caused by the fire is estimated at \$80,000.

Governments differ

The difference between the responsiveness of local governments and the provincial and federal powers never ceases to amaze the observant individual.

Perhaps what is more amazing is the popular reaction to government and the way it quickly changes from active opposition or support to passive acceptance.

It seems that, as the process of government has matured, the governors have lost their responsiveness to the people and the people have succumbed to lethargy in regard to the government's actions.

Often it seems as if the entire exercise of government is predicated on the assumption that the population is apathetic; that they will endure whatever burden the government lays upon their backs silently, mulishly.

That statement "everyone complains about taxes but no one ever does anything about them" is representative of this situation.

On the local level both the government and the people seem cut from a different cloth. Local issues galvanize a community far more than do the edicts of the federal or provincial parliaments.

In their turn the federal and provincial levels of government show far less evidence of responding to popular opinion. Ask yourself when was the last time public opinion changed the action of any of the superior levels of government?

Recently Dysart et al council adopted a budget that called for the average citizen to find one per cent more tax money than he found last year.

The last time either the provincial or federal levels of government called for such a modest tax increase eludes the memories of most of us.

Our federal government, this year intends to spend billions of dollars. It will spend more than \$100,000 per minute according to some reports. At that rate it would consume the entire budget of Dysart in a little under ten minutes.

In the midst of an economic depression and in an era of tremendous inflation the local government seems somehow more in touch with the nation's economic climate and its impact on the citizen than do the national leaders charged with that responsibility.

The citizens of Dysart respond to their local government far more quickly and certainly than they do to the government of this province or this country. Twice in the past few weeks local citizens have brought their complaint to the floor of the council chamber when they thought their elected representatives might not represent the people's point of view.

One is forced to wonder if any of those citizens would be willing to present a similar grievance to the federal, provincial or even county governments. And should a vocal delegation of citizens arrive at their chambers would any of those bodies deign to receive them?

Perhaps the question of government isolation vs. public indifference can be resolved into a simple matter of proximity. When the politicians and the people who elect them live in the same area they have little choice but to react with one another.

As the government moves further away from those who elect it, it loses its responsiveness to the community as a whole and in turn loses some of the interest and reaction from the electorate.

It is no surprise that all the great archetypes of democracy, the New England town meeting, the Swiss, Canton and the Greek city-state, are all local governments.

Peter McGuinness

Enjoy the summer

This year the municipality will once again offer summer recreation programmes both in Haliburton village and in West Guilford.

A wide variety of programmes will be available through the programme for children and, it is hoped for senior citizens as well.

Let's hope that this year's programmes are fully patronized so that both young and old will be able to enjoy an active and enjoyable summer.

by LEN PIZZEY

Laundromat is kind of adult arcade

Letters to the Editor

To the Editor:

I read with passing disinterest the continuing saga of the arcade controversy. For my own children, I would be just as concerned if they "hung around" the IGA, the Red and White, or the Pharmacy. I like to see them spend time in several situations, and I care to know, within reason, where they are.

Anyway, the real point is that Haliburton has had an arcade for years, it's laundromat. Flashing lights, unpredictable squeals and grunts, victory and defeat, predictable puddles of water, exotic odors of burnt offerings; it's always been there.

And some of the fears associated with machines; hostility, self destructiveness, nasty thoughts, secret wishes, sneaky doings - you'll experience them all in our cleansing parlour. And the nice thing about it is the consistency. It never changes, and there's comfort in that.

The games available are fairly limited, with "Out of Order" the most popular. As for drugs, I find a visit to the Legion twist "spin" and "dry" a necessary part of the cycle.

Local residents can enjoy the benefits of long term exposure to the games, while tourists to the area could reap the benefits of the short term shock.

If my kids are going to put quarters in machines, I'd rather they did it in a place where they get their moneys worth, whatever the pursuit.

Brian Turner,
Donald, Ontario.

To the Editor:

I have been a tourist in Haliburton for many years and I am very disappointed in the town this year for two reasons.

Recently I attempted to do my laundry in the so-called laundromat. I discovered only one double machine was working and only three dryers and I lost \$1.85 before I found a machine that would operate.

There was no address or telephone number where I could reach the owner to be reimbursed.

In checking around the town, I was told that the owner was a Sid Cooper who is also a Dysart member of council.

It seems to me that if this is the type of business man who cannot be responsible for his own business operations, the people of Haliburton should be more careful in the future in the type of people they place on the council.

Secondly, I was surprised to see five real estate offices on the main street, which to me, is not a tourist attraction. The bright tourist attraction in Haliburton is the new Sky Slider which the village

of Haliburton should be very proud of.

After chatting with several citizens of the town, I have trouble understanding the controversial attitude of the council for any other tourist improvements.

Laura Thompson,
Scarborough, Ontario.

To the Editor:

We were very disappointed to read of the two decisions of Dysart et al Council to approve a games arcade on the main street of Haliburton and deny hot air balloon flights. Aside from the fact that both applications were very divisive issues on council and had strong and substantial public feelings against ultimate council decisions, these issues just do not have the best interests of Haliburton at heart from a tourist point of view.

We've been cottagers in Haliburton for 20 years and come north from Toronto to the Haliburton area for a change of pace and enjoyment of its beautiful surroundings. So do many of our friends who visit us.

There are so many games arcades popping up in Toronto that the pastime is rapidly becoming and addiction for kids of all ages. The last thing we, as Torontonians want, is to be exposed to this situation, while walking down the main street in Haliburton.

It is one reason why we, as summer residents, like to get away for a change from the city. I feel there are many summer residents and particularly occasional vacationers who are going to perceive a games arcade as a strong negative in Haliburton.

It is a basic premise that to sell something in a competitive marketplace, you have to have a product with a difference, preferably a unique one. Arcades are a 'dime a dozen' now, and have a negative connotation with adults. Now, I don't know of any places where balloon flights are offered.

Wow, what a way to view the beautiful surroundings of Haliburton! What a reinforcement to bring people back to Haliburton! What a novel experience for visitors to talk to friends about! What a way to set the town of Haliburton apart from the many other towns competing for the same tourist dollars in these difficult economic times! What a basic difference to attract people!

From a tourist point of view, we feel you need to attract adults to the area first. Kids come with them. An arcade won't help. Balloon flights will. Haliburton residents have done a great job in improving the town and putting it on the map so far. Please be careful not to begin destroying what you've laboured to build.

We love the Haliburton area and want to see it prosper and remain attractive.

Donald G. Ross,
Toronto, Ontario.

Feir Play

Creighton Feir

At a recent meeting of the Rotary Club of Haliburton Chester Schwandt introduced the guest speaker for the evening, Janet Smith who is the Executive Secretary for the Victoria-Haliburton Lung Association. Janet, who hails from Lindsay, spoke on the evils of smoking but she was happy to report that the anti-smoking campaign seems to be working and more and more smokers everyday are getting rid of the habit.

During her talk she pointed out on an illustration the effect that smoking has on a person's lungs and the damage that it is doing to their health. At present she visits many schools in the two counties trying to get the point across to the young students not to start smoking.

At one time I was a very heavy cigarette smoker and about four years ago I said enough is enough. I quit cold turkey and haven't had one since. I now feel sorry for those who are struggling to quit this dirty habit. When I first joined the Rotary Club in Haliburton out of fifty members there were only three or four who didn't smoke but now that trend has reversed itself and only four or five members continue to smoke.

I can always remember when I was smoking I would just dread to attend a meeting of the Rotary Club when I knew someone was going to speak on the evils of smoking and what it was doing to my health. I knew what a health hazard it was and I didn't need anyone to keep reminding me of it. At that time I really enjoyed smoking cigarettes but, inside, something was telling me that it was time to give them up before I had lung cancer or some associated disease. I kept on smoking, not wanting to give up the habit, but all the time knowing full well that the statistics that were coming out were stacked against the person who was smoking.

I literally quit about 100 times before I finally said to myself that I won't be a slave to these nicotine sticks any longer. I have never regretted that decision and now when the speakers arrive to speak on smoking I can sit back and enjoy listening with a clear conscience and better health.

When I look back to the time when I couldn't seem to go very long without a cigarette I remember the times when my wife, who by the way is a non-smoker, and myself would eat in a restaurant. When the meal was over with I would immediately light up a cigarette while she was finishing her coffee. She would always say "Can't you wait until we get outside to light up as I can't stand that smoke blowing in my face."

My reaction would be one of bitterness and I would think to myself, who is she to tell me when I can have a cigarette? Now that I have given up the habit I know what she was talking about. In surveying the smoking situation at the present time it would appear to me that the men are giving up the habit but the women seem to be continuing to smoke as much or more than ever.

One day recently when I happened to be in Varty's Jewellery and Gifts in Haliburton, my friend, the owner, Marvin Varty, showed me a small booklet, presented to him by my brother-in-law Don Rennick of Mississauga, called Goodwill. It is published quarterly by the Society for Goodwill Services in the interest of the disabled. It's a very interesting booklet with photos of Marvin and several others who attended the International Abilympics in Tokyo, Japan, last fall.

Marvin, who was a member of the Canadian contingent, told me that during the week long trip with the handicapped and non-handicapped that they experienced the same balance of compassion, kindness and strength, liberally mixed with a great deal of fun and entertainment. All of these were generated by their Japanese hosts.

We understand that Holland has agreed, in principle, to take up the challenge to host the next International Abilympic in four years.

Last week Jack MacGregor of Camp Kandalore presented me with a 1982 White Water Schedule giving the various events, dates and locations from the Credit River and Palmer Rapids to the Gull River at Minden. Of course the one that interests us the most are the White Water events on the Gull River.

The next one will be the Provincial Slaloms to be held near Minden on August 8-9. We will have more details on this at a later date.

The Rotary Club of Haliburton will be holding their year-end meeting at Wig-A-Mog Inn this Thursday evening, June 24. President David Bishop will be handing over the reigns of office to incoming president Doug Devolin at this time.

Just a last minute reminder here that the 4 C's in Haliburton are staging a Talent Night this coming Friday at 7:30 p.m. at the Haliburton Highlands Senior Elementary School. We understand that some outstanding talent from the local area has been lined up and you won't want to miss being on hand when they strut their stuff. A goodwill offering will be taken up to help pay operating expenses at the 4 C's.

There seems to be three things that the people in the Highlands of Haliburton can't seem to do anything about. They are death, taxes and wet week-ends. For the past few months it seems to have rained every week-end and we can't seem to turn off the tap. There is always that possibility that we wouldn't know what to do if we had a week-end with plenty of sunshine.

VIEWPOINT

Pic of the Past

Our thanks go out this week to Stewart (Spike) Welch of Kinmount, Ontario for giving us permission to use this photo showing the Blairhampton School in the very early 1900's. This school had several teachers through the years and when this picture was taken the superintendent of the school was a Mr. Cook. The average attendance at the Blairhampton

school was 30 students. Blairhampton was named after a Scottish immigrant family who, with five other families came north from Cobourg by ox-cart, to establish a settlement in Minden Township. In early years Blairhampton supplied lumber concerns in the area with meat and feed.

Interim report tabled by committee

Queen's Park

John Eakins MPP

The Interim Report of the Liberal Task Force on Jobs for Youth, chaired by John Sweeney (Kitchener - Wilmot) was released on June 16. Latest unemployment figures available are those for May which show that 186,000 young people between the ages of 15 and 24 are jobless, representing 16.4 per cent of the youth in the labour force.

Since established on March 23 the Task Force has discussed the growing cancer of youth unemployment with young people, educators and alternatives, recommended and supported by, the Task Force.

These alternatives include more training opportunities for those who are currently unemployed to meet skilled manpower demands, particularly in the new technologies, when the economy improves; incentives and/or a legislative requirement to encourage on-the-job training by Ontario industry; a restructured apprenticeship

program to permit easier access and reduce the current high dropout rate; and a realistic and concerted attempt to change the public conception of the value and importance of skilled trades, to remove the existing "stigma" of blue collar work.

It also recommended improvement of the present counsellor to student ratio of 1:400 and in-service opportunities for counsellors to keep abreast of changes in business and industry; introduction of career counselling in elementary school; re-evaluation of the secondary school curriculum, and mandatory core subjects such as English, Mathematics, and Science to ensure that young people are equipped to be flexible and adaptable in today's changing labour market, with particular stress on the importance of female students continuing with Maths and Sciences.

Other recommendations called for a mandatory school credit course on career guidance, job readiness, and development of marketable skills; for effective Ministerial guidelines and mandatory standards on co-op education and work experience programs; for greater liaison between business, industry and education; for improved manpower forecasting by government and business to assist counsellors and students to make appropriate career decisions.

More letters to the Editor

last few weeks (either sadly or gladly!), I'd like to apologize for its rather sudden disappearance.

Along with many other county residents, I find the summer season heralds a period when the number of hours in a week total only half the amount necessary. Having hoped to carry the column at least into July, my intention was to

provide a little advance notice, but the best-laid plans of mice and men go off astray.

So thank you for your interest folks, and if anyone would like to revive our local column, perhaps you could get in touch with the Echo.

Janet Barker,
Wilberforce, Ontario

Watching a tragic world go by

Serendipity

by SUE COOPER

To stand on the side-lines and watch unnecessary tragedies other people must endure sometimes makes the observer bitter at life's unfairness.

Two events this week did nothing but devastate the people involved and left them only memories of the past and the harsh realities of the future.

Tuesday was an unlucky day for Norm Harrison Sr. of Ingoldsby. His house was demolished by an explosion when he turned up his oil furnace thermostat. A broken propane line had allowed gas to seep into the basement and a spark from the furnace caused an immediate explosion.

The entire house was completely gutted by the blast. The sight of family heirlooms and china smashed into indistinguishable pieces was horrible. A fiftieth wedding anniversary cup, smashed in half, was resting in a garbage box.

Harrison couldn't believe that the house, he has lived in since 1941, could be repaired to its former splendour.

The other disaster to befall residents of the area

this week, was the complete destruction of Robertson's sawmill, Thursday.

Fire caused \$80,000 damage with most of the machinery inside the building ruined. There was no insurance on the structure, mainly because sawmill insurance is outlandishly expensive; a prohibitive cost to many small mill operators.

Friday morning only smoldering ruins of the mill remained.

The sadness of these tragedies, is the utter helplessness of the situation. In Harrison's case, his insurance is expected to cover the damage, but most of the material possessions he lost are irreplaceable.

In sawmill case, not only has a person's livelihood been destroyed but the highlands have lost yet another tie to its past when independent loggers and sawmill operators flourished.

Federal government spends billions

From the Chamber

by Bob Stinson

Don McGillivray in a column in the Hamilton Spectator came up with some astonishing figures that indicate how burdened we Canadians are becoming with government.

The average Canadian worker produces about \$32,400 worth of wealth in a year. The federal government will need about 16.7 billion dollars just to pay the interest on its debt. That means it would take 515,400 Canadians working full time just to pay that interest.

The spending estimates for the coming year total 76.3 billion dollars which amounts to \$145,000 per minute. John Crosbie was defeated on a budget that estimated \$131,000 per minute for this same time period.

With the public sector's work force reaching 439,000 it requires the work of another 2,614,000 Canadians to support them. That means that the efforts of over 3 million people are required just to keep this government going.

Think of that as the combined populations of British Columbia, Saskatchewan, Manitoba, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland, seven provinces doing nothing else but working to keep Ottawa in business.

The last time Canadians faced this kind of a government burden was just after the second world war. What's the excuse this time?

Highlands Weather Reports Begin

Beginning the first week in July, radio and tv stations across Ontario will be able to contact a new toll free number in Haliburton County to obtain a 20 second updated weather report. The reports will be on tape and subsequently used in the stations program schedule to provide the public with valuable information on local conditions.

In addition, of course, it will provide our region with badly needed exposure through the media.

The idea for this program was brought back from Myrtle Beach by Elgin Stouffer who reports it is very successful there. He and a committee have been working hard to get the plan operational for the coming season and are now ready to go as soon as the Bell Telephone has the special Inwats telephone line installed. There have been considerable discrepancies in the weather between here and other Ontario centres during the past month so this program may be very appropriate.

Hot Line For Small Business

If your business is facing what appears to be an unfair application of regulations or red tape there is now a new federal service to help. Call the "Small Business Hotline" collect at 613-995-9197. They claim that you will be provided with either a solution or further assistance to your problem within five days of your call.

Welcome Summer visitors

The long awaited summer season is upon us and we have been preparing to welcome them. Travel counsellors Susie Wingat and Linda Booth will be augmenting our regular Chamber staff and Brenda Fearrey will be assisting Ev Perrin at the caboose in Haliburton village. Both centres will now be open seven days a week for the summer.

Cardiff will also be operating their booth in the log school house on Highway 28 with municipal employees. All members of the Chamber are invited to display advertising materials in our centre and any business may take advantage of the municipalities' booths.

The Central Ontario Travel Association are putting together a co-op advertising promotion for mid-July to encourage those last minute book-

ings. This has been done because many operators have indicated they may still have openings.

The U.S. visitors that are being enticed across the border will be looking for the extra value their dollar can bring them. It's an advantage we can offer them and it is sincerely hoped that all of you will provide fair exchange on U.S. funds.

Beachli's batters stronger than lumbermen's hitters

Haliburton Lumber went down to defeat against Beachli Construction in recent men's softball action.

In the game, played on June 17, Beachli doubled the Lumbermen's effort to win the game 6 to 4.

Haliburton Lumber was first at bat, pitcher Bernie Nicholls making the opening trip to the plate. Nicholls took a single on an error by Beachli third baseman Kevin Sisson. Lumberman Jim Winn slugged a two base hit and stole one to bring Nicholls home.

Bob Johnston and Lee Bull struck out before Kevin Newell earned three bases on a centre field drive to bring Winn home.

The next three innings were barren for the Lumbermen. The result of nine trips to the plate was a single in the top of the third.

In the bottom of the first Beachli's John Wilson hit for a base and got to second on a walk to Dave Nicholls. John Robinson's two base hit earned him an RBI as Wilson scored for Beachli.

A double play off Earl Bull's abortive single brought the inning to an end and robbed Beachli of a possible second run as Nicholls was tagged on his way home.

The second, third and fourth innings were also dry for the Beachli nine.

In the top of the fifth inning Paul Morrisette took a base when he was hit by a pitch. He made it to second on a sacrifice hit from Ken Barry but was held there as the next two Lumbermen failed to pick up any bases.

In the bottom of the fifth Nicholls and Mark Schell scored for Beachli. Schell made his run on the strength of errors by the right fielder on his single base grounder and then the left fielder on a fly-ball from Robinson.

The sixth inning kept the Lumbermen's hopes alive as Johnston hit a single and made two bases on Bull's attempted single before being brought home by Newell.

The Beachli half saw Bob Nichol earning a walk as did Wilson. Dave Nicholls' single loaded the bases as an abortive double from Schell earned two RBIs when centre-fielder Kevin Newell was unable to get the ball to Bull in time. Schell was unfortunately tagged on his way to second bringing the inning to a close with Beachli three ahead.

The Lumbermen were unable to score in the seventh despite good hits from Wayne Speicher and Nicholls. The final score was Beachli 6, Haliburton Lumber 3.

A make-up game on June 20 saw Beachli vanquish the Legion team 9-0.

In the first inning Beachli's Wilson took a base on balls and was brought home by a double from Schell.

In the Legion half Scott Larue slugged a solid two base hit and made it three-quarters of the way around the diamond when Bob MacNaull hit a single into left field. However, no more bases were gained before the

end of the inning.

The second inning went poorly and Rod Thurston struck out. Nichol took a base on balls and Pete Fearrey was hit by a pitch. Wilson's single proved fruitless as Nichol was tagged by the shortstop to bring the Legion nine in.

The bottom of the second

saw Sid Cooper tagged on his way to first, Tran Larue hit a fly to the shortstop and Ian Cooper struck out.

In the third Beachli's Nicholls hit a double and earned a third base on Robinson's attempted single. He was brought home by Sisson to put Beachli ahead by two

Members of the Haliburton County Big Brothers Association and their 'little brothers' spent part of the weekend at Haliburton Forest and Wildlife Preserve enjoying some camping and fishing. Here Art

Dawson, one of six 'big brothers' recruited by the local organization, keeps an eye on the effort to land some lunch.

Recreation gets organized

New Dysart summer recreation co-ordinator hopes three programmes expand after season underway

Co-ed soccer, tennis school and playground activities will be three of the programmes offered to youngsters in Haliburton this summer.

Pam Iles, who is acting as summer recreation co-ordinator for the township said that these three programmes are all that will be offered at first but other programmes may be made available once the children's activities are underway.

One of the programmes that may be available later in the season is a recreational-fitness session for the townships' senior citizens.

The co-educational soccer programme is offered to children between the ages of 6 and 14. "It was one of the best programmes last year," Iles said. An average of 30 youngsters took part in the activity last year.

The programme will be purely recreational to start with, but later in the summer, a recreational group from Toronto may be invited up to play against the Haliburton group.

"They did that last year and the kids seemed to go for

it," Iles said. The visiting soccer group would be billeted in area homes.

A tennis school will be offered this summer. There was a similar programme last year but due to a late start it did not do as well as was hoped. "This year things should be better," Iles said. "It will be starting earlier - in July."

The tennis school will be an instructional programme aimed at youngsters between the ages of 7 and 12. A tournament may be organized for the children involved in the programme but this will depend on the ages of those involved, Iles said.

Organized and supervised games and crafts will be offered to younger children again this summer. The playground programme will be offered at two locations: Head Lake Park in Haliburton and in West Guilford at the Community Centre.

The Haliburton playground group will meet on Monday, Wednesday and Friday morning at the slides in the park. In event of rain the group will meet in the

basement of the library where, in addition to the regular programme films may be shown.

The West Guilford playground group will meet on Tuesdays and Thursdays. As yet no alternate arrangements have been made for a rainy day site in West Guilford.

The playground programme is aimed at children between three and eight years of age. "The programme went really well last year," Iles said. "They had a really good turn-out."

A tennis club will also be organized this year. Members will be able to take advantage of the township's courts in the mornings and the evening.

In addition the members will have access to the keys which operate the tennis court lights. The general public will be able to make use of the courts in the afternoons. A full day may also be set aside for public use.

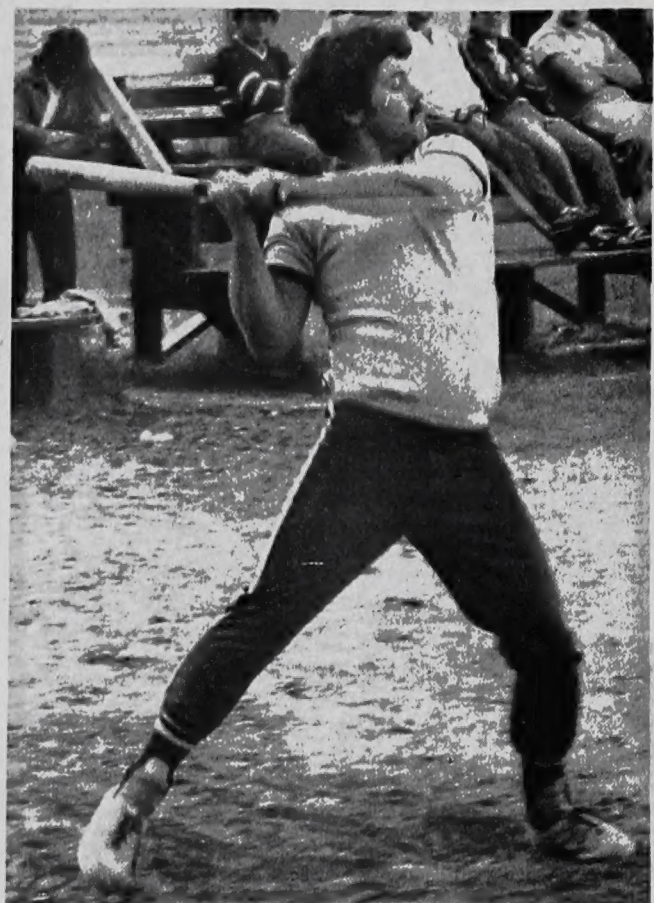

Iles said this programme was around last year but was not patronized as much as was hoped. The tennis club is open to any age group.

Iles hopes to repeat last year's Green Lake Run some time in the middle of August. She said the run was successful last year.

Another planned programme is aimed at those who are no longer youthful of limb but who are yet lively enough to take advantage of some of Head Lake Park's facilities.

The seniors programme will, hopefully, encourage the township's older citizens to use the shuffleboards and horseshoe pitches that are available there.

Another programme that is in the works is a fitness session for the area ladies. Vacationers, cottagers and area citizens are all encouraged to get out and take advantage of the summer recreation programmes.

Toddlers express self-concept notion

Mispronouncing, joking about a child's name can be offensive

by CATHERINE MILLER
Infant Development
Consultant

By the age of 18 months or so, the notion of self-concept is expressed in almost every aspect of the toddler's life. A child's self-awareness becomes increasingly more noticeable to the rest of the world as language skills develop. The toddler is learning that each and every object in his environment has a name, and that he is no exception. The toddler who insists he is "Doug Murray" as opposed to Casey Jones (even though

he is wearing a railway engineer's disguise) is demonstrating this principle.

One's name is the single most important component of the self-concept. The apparent confusion on the face of a toddler when they are introduced to someone with the same name tells us just how important one's name is to their self-concept. One way for a toddler to resolve this problem is to use both given and surnames, i.e. that's Catharine Clark, I'm Catharine Miller. Forgetting, mispronouncing or joking about a child's name is the

easiest way to offend them.

When parents select a name for their child, they are in fact introducing certain associations, characteristics and meaning to their child's self-concept (eg. names of famous people - Mary, Pierre), attractive natural phenomenon (Dawn) or admired qualities (Joy, Faith).

The gender labels, boy or girl, are the next verbal labels that are associated with one's self-concept. Research has shown that as early as 2-3 years of age, toddlers can apply gender labels appropriately and are

aware of the stereotypes associated with male and female behaviour.

Just as the child learns that every object has a name, he learns that there are "names" for intangible entities such as moods, feelings, relationships, etc. Through this process the self-concept grows to encompass the toddler's personal view of how the "inner" child related to the outside world.

For example, the recognition of personal possessions and the word "mine" is evidence of a self-aware-

ness. The child who does not see himself as a separate agent will not insist on ownership. Researchers have suggested that the balance between "mine-ness" and the ability to share in a child's behaviour is indicative of his understanding of the self-concept.

In other words, the child who is just beginning to differentiate selfhood may see virtually every object as either "mine" or "not mine". On the other hand, the child who has a clear sense of self may be more willing to consider being generous, sharing or taking his turn.

Alongside the "mine" concept the "me" is developing. Here we refer to the familiar "Let ME do it", "Let ME try", "It's MY turn", "I can do it". Each and every one of these ex-

Walter Noice, of Minden, has 16 paintings on show at the Minden Cultural Centre. Noice's art will be exhibited in the Agnes Jamieson gallery until July 6. His works feature the old Minden public school, the clergy house and the old Minden grist mill.

Lindsay Presbyterian UCW met at Coboconk United

The Lindsay Presbyterian UCW executive met at Coboconk United Church on June 7 with 50 presbyterian officers and local presidents in attendance.

President Thea Brandsma welcomed everyone attending and Olive McDonald, vice-president, conducted

Audrey Valerie Roberts, daughter-in-law of Fred and Chris Roberts of Glamour Lake, graduated from Seneca College June 16, 1982 with an Honours Diploma in Accounting and Finance.

the worship service using as her theme "Whither Bound".

She read Psalm 34 verses 1-9. In her devotional she asked the question "What are we going to do with this new year?" and "Whither goest thou?"

Brandsma said her aim as president is to visit every UCW in the Presbyterian. She welcomed Margaret Gilson, president of Conference UCW to the meeting. In order to get better acquainted each person present was asked to introduce themselves and give a brief summary of information about themselves.

Treasurer, Orlee Wells stated that donations sent in for the 20th anniversary gift totalled more than \$1,000 to date.

Leola English gave a report on the Fair booth. She said that a committee had been set up to co-ordinate the booth. She asked that slides suitable for use be sent in to the committee by early August, clearly marked if return is desired.

UCW executive members who will act as representatives to Presbytery are: Mu-

An exhibit of Agnes Jamieson's and Walter Noice's paintings opened at the Minden Cultural Centre, Monday evening. Jamieson's 34 paintings are hung mainly in the common room and range from local woodlot scenes to Rocky Mountain landscapes.

Senior League

by Bert Harrison

When Rev. Burgess was asked to take the service in the Minden Gospel Church, Mr. and Mrs. Harold Thompson took the service in the chapel here, so we wouldn't be left in the lurch.

We thank them both for coming. We think they are really grand; always more than willing to give a helping hand.

We watched three interesting movies here Monday night. Linda had trouble with the machine before she got it right.

Rev. Miller took the service in the Chapel this fifteenth of June day. Fred Ballard played the music,

while Mrs. Taylor is away. Rev. Miller spoke on Jesus - said "follow me and I will make you fishers of men. Yes it was nice having Mr. Miller take the service again.

Tuesday night is music night, as I have said before. The Watson - Smith due came to entertain some more. They played some real toe tapping tunes that were simply grand. Then they played some lovely hymns like "Amazing Grace", "How Great Thou Art" and hymns like "Beulah Land."

Doris attended a seminar for a few days last week. She's back with us again with dimples in her cheeks.

Millie Wood spent a few days in her home in Haliburton. Where it is located I'm not really certain. She is really missed when she isn't here. Mrs. Demoe has been having trouble with a real sore ear.

The Shorters spent a few days in their town house, to entertain their daughter from the sunny south, and their granddaughter from Seattle, Washington. They had a really nice visit and also a lot of fun.

Our head cook, Mark Schell, he is quite a guy. I asked him if he would make us a rhubarb pie. Will tell you this I must - when we sat

down to dinner, we had pie, with double crust.

They are taking Ruby Lewis to hospital for tests. Whatever they do, we hope it will be for the best.

Our gazebo building is being held up by red tape. We hope it won't be long before we see it taking shape.

Our nurses are real busy, while most are in their prime. To stay and hold your hand awhile, they don't seem to have the time.

The tea party was on Thursday afternoon. It was hosted by the Minden U.C.W. It's nice to have

WRITE FOR YOUR RIGHTS

ONTARIO'S NEW HUMAN RIGHTS CODE BECAME LAW JUNE 15

Our new Code is based on a very simple but strong idea: Each person living in this province is equally important. And each person's worth and dignity should be recognized in order to create a climate of mutual respect and understanding.

Here are some of the main points of the new Code:

RACIAL, ETHNIC AND RELIGIOUS DISCRIMINATION. Everyone has a right to equal consideration for employment, contracts, accommodation, goods, services and facilities regardless of race, colour, ancestry, ethnic origin, place of origin or creed.

HANDICAP. Every person with a physical or mental handicap has a right to equal treatment under the Code.

EMPLOYMENT. The Code has been expanded to prohibit discrimination against handicapped

persons, persons between the ages of 18 and 65, and against persons on the ground of family status.

HARASSMENT. Every person has a right to freedom from harassment because of any of the prohibited grounds in accommodation and employment. And unwelcome sexual advances by persons in a position of authority are prohibited.

The Code elaborates these and many other provisions, and permits exceptions in certain cases. We'd like to send you a copy, and your own guide to the Code so that you can find out all the details. Please write: Ontario Human Rights Commission, Queen's Park, Toronto, Ontario M7A 1A2. Or phone: (416) 750-3575.

Ontario
Human Rights Commission
Hon. Russell H. Ramsay
Minister of Labour

Canon Borden Purcell
Chairman

And see how the new Code supports another very simple but strong idea: Together We Are Ontario.

GOOD YEAR

Happy Gang News

By Watson Anderson

After breakfast Monday morning games and exercises were scheduled consisting of throwing a ball around the activity room and other pursuits. The exercises were devised to ensure that all joints of the body would be put through their paces just to keep the gang in shape.

In the afternoon Charlie the volunteer carpenter turned our attention to the crafting of children's clothes racks. Particularly to the filigree of elephants that support the post perpendicularly and, at the same time, provide decoration to this bit of furniture. When completed these racks will not only be useful but ornamental.

It is possible that we are in for a disappointment in regards to the muskmelons. They are simply not starting off in profusion like last year, but the cherry tomatoes have a quite rugged growth but are not yet in flower.

The first petunia plant is a very pretty deep purple. It ushers in the main flower display. A bit of devil's paint brush shows here and there, and we read that in some parts of the United States it is listed as an endangered species of flower.

Another session of Bible study led by June Devolin was held Tuesday morning. John chapters 14 and 15 and Matthew chapter 18 de-

scribes the intensive portion of Christ's ministry where protocol for Christendom was established. Especially the one dominant theme that all prayer to God must be in the name of Jesus Christ. He is always there to intervene before almighty God to grant our petitions of prayer.

June brought her Christian friend Kathy Martin to this session for companionship.

Betty Wise and Helen Archer were the volunteers to help in bingo in the afternoon with Allen Macklin doing the calling. Although bingo is the most popular game we play some times a player gets the feeling that there are other priorities for the time being takes precedence and simply stops playing. This game was fully as entertaining as any.

The petunias are beginning to flower and being first seems to be the most beautiful. So with the impatiens and the zinnias.

Wednesday it became necessary to bake a cake for the birthday party on Thursday. In doing this we start with a liquid like thin gruel then other items are stirred in until it becomes a batter. This is put into a cake pan, put into the oven of the required temperature and baked for the time called for, after which the foundation of a delicious cake is at hand requiring only the topping and filling.

By this time a ride was ready to take a group of us to Locarno-on-the-Lake to meet senior citizens from miles around for a dinner that consisted of beef stew, a boiled potatoe, some green string beans and diced carrots.

For conveyance, volunteer owner-driver Les Hughes took Norman Titus, Harold McKelvey and John Sissons; Marion Currie took Hazel Parish and Watson Anderson; Mary Hannah took Jack Pollard and Alice Hartle and Ivy Shaw took Peggy Hemmerson and Beryl Morrow. We were warmly greeted by the president Jack Bassett, one of the good Irishmen. Everything was superb.

Last Friday evening Jack Henderson, one of the gang fell and 'hurt' himself. A local check did not find anything so on Wednesday the ambulance took him to a Peterborough hospital. We sincerely hope for the best.

In the evening those two most vivaciously talented ladies, Nancy Picard and Peggy Neville took time out to give us a delightful session of popular singing. We owe them great praise.

Thursday morning brought another session of fun and fitness reminding of that old cliché "if you want fun be funny". If you were to drop in on one of these sessions you would agree with us that it is very funny.

The monthly birthday party was held in the afternoon and Jerry Bonyun was cheer-leader and mistress of ceremonies and the piano was nimbly handled by volunteer helper Betty Salvatori, making for a splendid duet.

The celebrants were Marjorie Gordon, Myrtle Pritchard and Annie Silvers. No lady under 90 years of age

will admit it. After the party sang an innumerable list of the most popular songs in the book the cake came.

It was a beautiful orange cake with fudge topping which we ate after the "birthdays" were sung. The three lady celebrants were very pleased.

Lieut. Sydney Buell of the Salvation Army in Haliburton, his officer pianist wife Beverley and son James conducted the devotional period Friday morning. The theme is expressed in the 34th psalm, one written by David, outlining all the many bounties that accrue to them that fear and love God. We enjoyed having the Buells with us at the afterservice snack of tea, cookies and a nice chat.

In the afternoon were three movies, Ray Smith projectionist. The first was "28 Degrees Above Below" depicting divers scurrying under the thick ice in the arctic revealing a magnificent beautiful environment of both animal and vegetable components. The second was about mainland China showing the Chinese citizenry and how they cope with the many complexities of high population and the urgent needs of the necessities of living, especially the various kitchen labour saving devices that we have. They are an amazing people. The third was "Talented Hands" showing the crafting of the various nick knacks of our everyday living especially pottery and sculpting.

We are happy to report that Jack Henderson is back with us and his normal cheerful disposition is back with him. We think it would be better if 'interest rates' were referred to from now on as 'wages of money'.

Senior League

from page 7

these groups come in each Thursday afternoon.

Congratulations to Ethel Boice on her ninety-second birthday.

We would like to thank all who sent us lovely cards and best wishes on the occasion of our sixty-fourth wedding anniversary.

Friday morning Doris took us in the bus to Haliburton Legion Hall. The Parkers came along to see we didn't fall. Then on the way home they treated us to ice cream. Now that we are back again it seems just like a dream.

Linda came along to keep us out of trouble. If we hadn't behaved ourselves, it would have cost us double. About one hundred and sixty guests sat down to lunch. We met some dear old friends of ours. They were a jolly bunch.

I would like to pay tribute to the Robertson sisters, both

Linda and Doris, who are always planning recreation for us.

The bingo was put on Thursday night by Mr. and Mrs. Lyle McKnight of the Kinsmen Club and now I have a hunch. If we would ask them they might stay for lunch.

Just a thought: The U.S. has Regan, Cash, and Hope. Canada has Trudeau, no cash, and no hope.

PINE & PATCHES NORLAND

SSFC offers summer courses

Small classes, proficient instructors ensure quality

Susan Clements

This is the second of two articles on the activities of Sir Sandford Fleming College (S.S.F.C.), Northern Campus.

The history, structure and community contributions of the college, were the subject of the first article, and the current summer courses and some of the problems presently confronted by the college are the subject of the second.

The summer courses offered by the Northern Campus this year will commence on July 5 and will continue until August 6. More than 60 courses will be offered, for children and adults. Small class size and proficient instructors ensures high quality courses. Samples of the instructors' work will be on display after June 25, at the Rails End Gallery.

Special mention should be made of two new courses; a micro-computer programming course, and a master spinner's course, consisting of two levels. It is the first time in Ontario that the two levels of the spinner's course have been offered in one session, and this enables non-residents to participate.

The adult courses are both credit and non-credit in nature, and are of thirty hours duration. Included in the credit courses, are painting, sculpting, and pottery, and the non-credit courses include stained glass, weaving, quilting, knife and tool-making and calligraphy.

Children's courses such as mime and dance, weaving, crafts, music and pottery will be offered. A children's day camp will also be in operation, and those enrolled will spend one half of the day at the camp and the remainder of the day participating in the courses.

This year, the Guild of Fine Arts, through community donations, is responsible for sending thirty-three Haliburton County children to the college's summer school for a one week period.

It is unfortunate that the location of the college will be uncertain after this year's summer school is completed. At that time, A.R.C. Industries will be leaving the building for a location more suitable to its needs. Consequently, S.S.F.C. will have two large classrooms available for rent at a total cost of five hundred dollars per month. The cost includes utilities, heat, snow removal and parking.

Haliburton County Board of Education, the building's owner, allows the college to use the space for the price of the building's upkeep. The college is dependent upon its rental income to cover half of this cost.

The campus is located within walking distance of the village, and overlooks Head Lake. It has been suggested that the location, size, layout of the rooms, and washroom facilities would be ideal for a day care centre. In short, any agency or organization providing a community service would be a desirable

able tenant, according to the college's director, Barb Bolin.

At this stage in the college's development, loss of the present location would be a setback. To secure a location which would accommodate the special requirements of courses such as pottery and weaving would be difficult.

Voluntary groups such as the Haliburton County Social Planning Council, the Haliburton Highlands Chamber of Com-

merce, the Industrial and Hospitality Training Committees, which have received free space and equipment from the college, would have to make other arrangements.

The acquisition of a new tenant(s) would allow this much needed community service to continue at its present level. Anyone interested in renting space, the summer courses or any subject related to the college, is asked to call Barb Bolin at 457-1680.

Toni Lynne Mathews, daughter of Dan and Arlene Mathews of Tory Hill, and Corporal Ron Peter, of Mount Pleasant, were married March 27 in the Kingston chapel. Dan Mathews gave his daughter in marriage and Robb Lee Lowe, of Brantford was the matron of honour. Corporal Robert Burns was the best man. The wedding dance was held May 1 at the Lloyd Watson Community Centre in Wilberforce.

riel Corneil, Jeanette McKague, Pat Parker, Joan Gladwin, Thelma Endicott, Glenna Beckham, Dorothy McKague, Ellen Grills, Margaret Gilson and Thea Brandsma.

Fall rallies will take place in October: Region 2 at Brechin, Region 5 at Bobcaygeon and Region 6 at Ingoldsbys.

Ingoldsbys reported on an executive meeting of Conference UCW that she had attended. She said that the short term goal of Conference UCW is to encourage opportunities for spiritual growth, and that the long term goal is to keep ourselves open for changes.

The 1983 annual meeting of Conference UCW will be in April at Cobourg with the theme "Growing in Faith together".

A filmstrip on "Visions, Gifts, and Deeds" was shown by Queen St. UCW. It was felt that this would help

each UCW in their report of "Women, Work and Worship".

Members were reminded of the fall events, one at Camp Quin-Mo-Lac, September 10-12 and the other at Campbellford on November 2-3.

The next executive is planned for November 8 at Fenelon Falls.

DISTRICT NEWS

Chatting with Irene

by Irene Moore

Kinmount Korner

by Millie Moss

Summer has finally arrived, or has it? The way the weather has been makes one wonder. Anyway the longest day of the year is past, and so is our 45th Wedding Anniversary. Trust me to pick the first day of summer.

Mrs. Arnold is visiting with Mrs. Wm. Milligan and Bernice at Newtonville at present.

Summer Crackers will be back in Minden at 2 p.m. on Tuesday, June 29. There will be instruments, story telling, magic, singing, and dancing for everyone. The whole family can get actively involved in all the fun, the admission is free, as the group is sponsored by the Ontario Regional System,

Outreach Ontario and local libraries.

If you can't make it to Minden in the afternoon, they will be at Stanhope Library at 7 p.m. On Wednesday, June 30, they will be at Haliburton at 2 p.m. and at Monmouth at 7 p.m.

Mr. Norman Cowen of Ottawa visited with the Arnold Cowens and other relatives in the county last week.

Marg Frise of Richmond Hill visited with the Bob Emmersons last week.

I do not feel that Sue Cooper has any reason to feel disappointed with any of her reporting about the library - culture centre. She did the reporting as she saw it and she was not wrong. Too

many reporters fit the facts to suit themselves but not Sue. I admire her for stating the proper facts and say, please keep on reporting things as they are, not as people want them to be.

Mr. and Mrs. Earl Hewitt have been visiting with the Davises at Foley.

There will be children's movies at the library-culture centre this Friday at 2 p.m. The shows will continue every Friday throughout the summer.

Reta and Louie Lemieux are spending 3 weeks in Brandon, Manitoba where they will be visiting relatives, as well as attending the centennial of that city.

The buckets of flowers on

the street have been placed there by the Horticultural Society, so please help them keep them nice, these are in place of the hanging baskets, as they were a great temptation.

Mr. Norman McPeake of Gravenhurst visited with the Phil Robinsons over the week-end.

A recipe for you: Take a 16 oz. can salmon, drained, with all skin and bone removed; 8 oz pkg. cream cheese, room temperature; 1 medium onion, grated; 1 tsp. pickle relish, drained; 1 tsp. liquid smoke; 1/2 tsp. lemon juice; 1/2 cup chopped walnuts or parsley. Combine first 6 ingredients in a large bowl.

Please turn to Page 11

On June 8, Molly Suckling, Jennifer Dettman, Kim Bennett, Vicky Swinson, Barbie Fountain, Joanne Swinson, Michael Zandstra, Christina Fountain, Sheri Magee, Robbie Dettman, Glenda Mertin and Lori Newman participated in the Victoria County Elementary School Track and Field Meet in Lindsay.

Our heartiest congratulations to Kim Bennett from our school for winning the junior girls championship. A trophy was awarded to Kim for her achievements.

Other winners from our school were: Kim Bennett - 5th place 100M, 1st in Long Jump, 1st in Standing Broad Jump; Molly Suckling - 2nd in 400M; Christina Fountain - 1st in Ball Throw; Jennifer Dettman - 5th in 100M, 5th in 200M, 3rd in High Jump; Sheri Magee - 2nd in Shot Put; Joanne Swinson - 6th in Standing Long Jump; Michael Zandstra - 3rd in High Jump; Vicky Swinson - 2nd in High Jump.

The Northern Schools placed with a total of 136 points. (The northern schools are comprised of Burnt Riv-

er, Cobocok, Kinmount, Norland and Kirkfield).

Saturday, June 12 was a beautiful day and all roads led to Branch #441, Royal Canadian Legion in Kinmount where a dart tournament was held in remembrance of Clarence Bacon and Alice Roach.

There were teams from Haliburton, Lindsay and Kinmount, 17 in all. The sports officer was right on the job and had them playing by 12:30, continuing on until about 8:30 in the evening. The winner of the C. Bacon trophy was the Lindsay #1 team, the Kinmount #9 team took second place.

The Alice Roach trophy was won by Kinmount #3 team with second place going once again, to the Kinmount #9 team.

The single titles both first and second place were won by Kinmount.

Everyone enjoyed the afternoon of darts and the new set up of dart boards.

The ladies auxiliary was well provisioned with lots of goodies.

The sports officer, Albert Crego, would like to thank

everyone who participated and hopes to see you all again next year.

Sunday, June 13 was a most enjoyable morning at St. James Anglican Church in Kinmount when "The New Messengers", a singing group from St. Paul's in Lindsay came to visit and sing.

There was a banjo and guitar and five beautiful singing voices. A very hearty thank you to Suzanne Teer, Mary Beth Gibson, Bruce Peck, Jim Finlay, and Bud Harris. We enjoyed it very much and hope you'll be back very soon.

Sincere sympathy is due at this time to John Shedden of Kinmount, his family and friends, upon the sudden death of John's brother Jim, in Oakville.

On the sick list this week are Grace Simmons, Peter Mulvaney, the Rev. L. Straker, Mary L. Pyke and Doug Michel.

Sympathy is extended to the family and friends of Marg James who died in Lindsay last week after a long illness.

Results of the euchre play

at St. James Hall, Tuesday, June 15: men's high went to Hugh Phillips, men's low was Bill Wilson, ladies' high was Clara Watson, ladies' low was Joan Taylor and the most lone hands went to Clara Watson.

A double surprise birthday party was held at the home of Marlene Phillips in Jackson's Point recently, in honour of the birthdays of both her mother, Vera Clark and her aunt, Eva Smith. Vera and Eva are sisters of Ruby Schell of Kinmount and Ruby was there for the party. She enjoyed three or four days with her sisters and other relatives at Jackson's Point.

Guilford Pulse Beat

by Bill Wood

Hi neighbours! This is your roving reporter again with the highlights of this past week's news.

Monday, June 14 the West Guilford ladies softball team hosted the Minden seniors ladies at the Centre. West Guilford was victorious with a score of 13 to 11. The game had exciting moments and was enjoyed by everyone participating.

The following night, at Haliburton, an exhibition game was held between the Guilford gals and Gary McNight's team of young men. The gals held the 13 to 15 year old youths with a 9 to 9 tie. The game was played with great spirit and sportsmanship.

Wednesday, June 16, the West Guilford team was hosted by Carnarvon and battled away for a final score of West Guilford 10, Carnarvon 9. The Carnarvon gals are all young and lack experience this year but they will be a very difficult team to beat next season. The West Guilford ladies have the greatest respect for the spirited Carnarvon gals.

We still need boats, oarsmen, and spotters for the second annual Pine Lake

Swim on July 1. This is one of the many highlights of West Guilford's Canada Day gala celebration.

Any readers willing to donate a boat or their time for this event please, contact this reporter at 754-2854. Any person wishing to participate in this lake swim can register their names with me also.

The Canada Day celebration will open officially at noon, and will continue until dark, with events, races and prizes, for all ages.

Pack your picnic lunch and come join all your friends and neighbours, July 1 at the West Guilford Recreation Centre and share in the fun.

The men's horseshoe pitching contest and the flea market are scheduled at the centre for 10 a.m. on the same day. Limber up your arms, fellows, and register now. A lot of fine merchandise will be displayed in the basement of the Centre for all you flea marketeers, to buy.

Listen to your favourite radio station, or watch your local T.V. channel for more details on the great Canada Day Celebration.

I will be attending the

monthly meeting at the Centre this Thursday, and will have details of that meeting for you in next week's column.

I met and enjoyed chatting with Roy and Yvonne Lees, who are visitors to this area.

The Lees are on holiday from Ipswich, England and were guests of Doreen and Gordon Dabbs of Redstone Lake. Spending their holiday touring the New England States, Toronto, and points in-between, the Lees capped off their trip with a week's rest at the isolated cottage the Dabbs recently purchased. On the first day the Lees missed the turn-off to the Little Redstone boat landing and ended up mired up to their knees on the hydro line road at the end of the Red-can.

Helpful cottagers were able to pull them out and direct them back to the landing where the Dabbs were

waiting anxiously for them. The two couples then took to the boat to enjoy a steak barbecue at the cottage but alas, no steaks.

A yearling bear had ripped the front screen off the door and not knowing he was not invited to the dinner, devoured all the steaks! Upon the boat's approach to the dock, the frightened bruin beat a hasty retreat into the bush.

Doreen, walking softly but brandishing a large stick, bravely entered the torn front door to chase away the "coon" she thought had broken into the cottage.

Luckily for her, the bear had found a way out of the place because it would have turned on her. On Tuesday, the Lees were caught on the lake in the downpour we had and were drenched to the skin.

The one fine day they had,

Please turn to Page 11

Carnarvon News

June 14 was the occasion Jack and Rocio Barnhart's 25th wedding anniversary. They received some lovely gifts and money for a plane trip to Calgary to take in part of the Stampede and to pick up a car to drive to Banff and Jasper.

Gelert Gardens was the scene of a large gathering on June 19 when Mrs. Harry Coven surprised her husband by inviting all his family to help celebrate his 70th birthday.

Eric and George of Brampton with their wives, Ruth, Ruby and husbands of Port Perry, and Bob and his wife of Carnarvon attended. We hope you had a happy birthday, Harry.

Dale and Wayne Toye have been having a holiday. They spent the first week gardening and the second week they went travelling. We are fortunate in having such good neighbours.

Mary McPhail is spending

a few weeks visiting relatives.

Frank Chambers and Phrona Sisson have been visiting the Maritimes.

A private funeral service was held at the Twelve Mile Lake cemetery for Alberta Weekes, wife of Jack Weekes. The family were all present and Rev. Elliott of Minden Anglican Church spoke comforting words to the bereaved family.

SHOCK TALK

Cutting down or pruning trees near overhead wires is dangerous. If you are touching a tree or branch that falls into wires, you could be seriously injured or killed.

Be extremely careful. Before pruning or felling trees that are near hydro wires call your local hydro for advice or assistance. Your safety is our concern.

Gooderham News

by Mary Hadley

Mrs. Barbara Edwards spent last week-end with her mother, Mrs. Audrey Prentice. Accompanying her were her two children, Douglas and Janice.

Visitors of Miss Dorothy Robertson were her sister, Mrs. Beatty, and her aunt, Mrs. Robertson, both of Toronto.

Mrs. Mae Pickens, with her daughter, Vaneta, motored to Timmins where they spent a week with her son, Merle, and family.

Welcome to our commun-

Minor softball

from page 6

Wilson. They were the winners with a score of 5-1.

The Bantam team took on the West Guilford ladies team and after a lot of fun, a lot of laughs, a lot of good sportsmanship, ended up with 9-9 tie.

The Bantam group does not have enough players to make two teams. They are grateful to the ladies' teams in Haliburton and West Guilford that have been playing them.

If the coordinators of the other groups would provide the scores to Walton Prime, (office) 457-1378 by noon Friday, they could be placed into the paper each week.

Men's softball

from page 6

runs. The Legion half saw three up and three down as Aaron Nicholls, Scott Larue and Wells Robertson failed to score.

The fourth and fifth innings were scoreless for both teams.

The sixth inning saw the Beachli nine come on in true powerhouse fashion as they belted in six runs.

A single base hit by Sisson started the ball rolling. Bull also took a single and Nichol took a base on balls. Fearrey's sacrifice fly took Sisson across the plate.

Wilson continued the pace with a single on a drive to left-field. He did not have long to cool his toes at first before Nicholls got an RBI with a tremendous three base hit. Schell brought home Nicholls with a single and was himself brought in by yet another three base hit from Chris Hodgson.

Bob MacNaull took the only base for the Legion in the sixth inning.

The seventh saw Beachli cap off their victory with a run from Thurston.

ity to Kei Cheong and his wife, Sherry, with their little son, Stanley, as well as Kei's parents. The Cheongs come from Toronto and have taken over the Gooderham Food-town Store.

On July 3, a garage sale will be held at the Orange Hall. This is sponsored by the Chatterbox Girls' Club to help raise money for a camp-out in August. Donations of saleable articles will be appreciated.

The United Church Women met last Friday at the home of Mrs. Grace Billings, 11 ladies were present. As part of the devotional period, the minister, Mr. Maurice Bradley, spoke on "Endurance", stressing the importance of a Christian faith when dark days lie ahead.

A few years ago Maurice was a lay missionary in Zambia. An interesting feature of the meeting was a meal he prepared similar to those eaten in Zambia while he and

his family were there.

No cutlery is used, instead the hands are used to convey the food to the mouth. A corn meal mixture, or mealy meal, was scooped up by each diner and formed to make a little ball to be used instead of a spoon. Minnows are usually eaten with the corn meal but at the meeting, sardines replaced the minnows.

A third course was a mixture of spinach, onions and tomatoes dipped up with the "spoons". Since the natives were poor, it was unusual to have all three courses at one meal.

Contrary to their expectations, all the ladies found the meal very tasty. A delicious dessert was served by the hostess.

Mr. and Mrs. Fred Vanderland have returned from a western trip. They flew to Calgary where they rented a car which they drove to Vancouver Island and spent some time with friends.

They travelled to northern B.C., back to Vancouver and returned along the U.S. border to Calgary. At the end of May they experienced snow and hail around Jasper.

In the Strait of Georgia, they were intrigued to see a school of killer whales, as well as seals. They covered a lot of territory in a short two weeks.

The new bride and groom, Mr. and Mrs. Colin Moon, (nee Marlene Hunter), returned from their honeymoon and spent the week-end with Marlene's grandparents, Mr. and Mrs. Hubert Alsop.

Mrs. Helen McMullen Please turn to Page 12

Chatting with Irene

from page 10

mix thoroughly, then place mixture on plastic wrap and form into a ball. Cover and refrigerate over night. Several hours before serving, roll in chopped nuts or parsley. Refrigerate again until ready to serve, with dark bread or crackers.

The pupils of Melissa Stephens gave a recital at the United Church last Sunday evening, which was enjoyed by all present.

Mrs. Betty Harrison, Mrs. Edith Welch, and Keith Hill attended the funeral of Mrs. Wagstaffe, the sister of Harold Hill, in Lindsay last week.

The new table and benches donated by Minden Rotary Club to the library look very smart now that they are in place.

Don't forget the old fashioned dance-a-thon being put on by the Minden Figure Skating Club at the Minden arena on July 10. Pledge

sheets available shortly. Keep watching this column for more details.

On Sunday, June 27, the Allsaw Pentecostal Church will be presenting drive-in movies, starting at dusk. The first show will be 'Devil at the Wheel' and 'Welcome Home'.

The Minden Women's Institute held their picnic meeting on June 16 at the home of Mr. and Mrs. Jim Grant. After a delicious pot luck luncheon, the ladies moved outside for the business meeting. A letter from Archie Stouffer Public School telling the W.I. how their donation was used was read.

There was a discussion about new members, also doing more work in the community, as the W.I. is for home as well as Country.

On September 15, the W.I. will meet in the Common Room at 2 p.m.

Adios and take care now.

Guilford Pulse Beat

from page 10

they spent touring the roads in the Haliburton Forest and Wildlife and saw some less threatening animals. Three deer stood in the road while Yvonne took their pictures.

Roy and Yvonne really seemed to enjoy their stay in the area, even though they were lost in the bush, starved by a mauling bear, drenched by rain, and annoyed by the insects. Best of luck to this wonderful English couple and the "grit" they showed on their hol-

idays. Come back again, folks!

Tip of the Week from Ev Paul:

Keep your tools from rusting or pitting by wiping them dry, then coat them with a thin covering of oil from an oily rag before putting them away. The tools will be as good as new the next time you need them. Thanks, Ev.

No more news for now, but if you have any items for next week's column call 754-2854, so until then God Bless, and take care.

Dorset News

by Phyllis Briscoe

A group from the Dorset Senior's club attended the media workshop held at the Legion Hall on June 11. The event was partially in celebration of the 10th anniversary of the New Horizons programme.

The New Horizons funds groups of senior citizens to undertake group activities, form clubs, etc.

There were representatives from the media to give advice and answer questions as well as representatives of most of the seniors' clubs in the area, who spoke on their individual clubs' activities.

Marlis Lindsay, field rep-

resentative of New Horizons in this area, was the luncheon speaker as well as chairing the media discussion.

A zone has been formed by a number of clubs in the area, to facilitate representation at conventions of USCO. Two Dorset members are on the zone executive: Jeanette Large as secretary and Frank Large as second vice-president.

Master of ceremonies for the workshop was Vic Hurst, chairman of the USCO zone of Muskoka.

On June 10 the Dorset Guide Company held their annual mother - daughter

banquet at the Dorset Community Centre. Over 66 people attended.

At the head table were: Rev. Kim Wright, Kathy McLennan, Pathfinder Leader, J. Seymour, District Commissioner, Joanne Buss, Ladies Auxiliary president Gloria Morris, ex. District Advisor, Linda Clark, Brownie Leader, B. Nangle, Division Training Advisor, and France Moulard, Girl Guide Leader.

The group would like to thank president Joanne Buss for organizing the dinner. A vote of thanks also for the ladies from the Dorset Seniors who helped with serving

and cleaning up, leaving the mothers free to enjoy the ceremonies.

The Pathfinders put on a couple of hilarious skits that kept everyone in stitches. The Guides also put on a couple of skits that related to their citizenship badge and were enjoyed by everyone. A number of badges were presented to the girls by District Commissioner, Seymour.

Award winners were as follows: Jennifer Morris - First Aid, Bird Watching, Campfire Leader, Native Lore, Backyard Cook, Skier, Citizen, History, Religion and Life Emblem and All Round Cord and Pin.

Tracey Boal - Swimmer, Backyard Cook, Citizen, Junior Camper, History, Backyard Camper, Needleworker, and All Round Cord and Pin.

Chantel Moulard - History, Astronomer, Aircraft, Citizen, Skier and Backyard Cook.

Tracey Crewson - Backyard Cook and Citizen.

Jo Ann Brown - Citizen, Backyard Cook.

Tammy Rutledge - Backyard Cook, Citizen.

Shawana Gower - Swimmer, Backyard Cook, Citizen, Backyard Camper.

Patricia Brooks - Hostess, Snowshoe, Backyard Cook, Skier.

Please turn to Page 12

Kinmount Korner

from page 10

and arrived home Sunday, June 13.

On Monday, Julia and Gerry White of Peterborough visited Ruby Schell and treated her by taking her out to lunch and later to the home of Bill, Bertha and Keith Stata for dinner and an evening of good visiting.

Following the church service last week, the singing group, their families and friends who attended church with them, all went to Kathleen and Terry Hartin's

the Bobcaygeon Road.

One lady asked for the recipe of my sweet and sour sauce: Chop 1 large onion and saute in butter. Add 1 cup brown sugar, 1/2 cup catsup and 1/2 cup vinegar. Stir and simmer for a few minutes. It's terrific for dipping chicken or any other meats.

A surprise birthday party was held for Bill Holstock by his neighbours "the crazy eights" recently. All the friends brought the food to

Len Taylor's house to surprise Bill and in turn he surprised all by arriving early. The food was excellent and was followed by a game of "Password". A good time was had by all.

These ladies: "the crazy eights" are also planning a giant rummage and flea market at Crystal Pier Marina on Sunday, August 1, from 10 a.m. to 2 p.m. Reserve tables early with Marge Int-Veen at 488-2277 or Yvonne Dyer at 488-2489. Cost of a table inside will be

\$5 and outside tables are \$2.

Marge Morrow, Yvonne Dyer and Ida Young were guests of Mitzi Alzner for dinner June 16. Following the dinner, Mitzi taught the girls a German card game.

Another week-end of pouring rain. I hope all you dads had a real nice day anyway. It won't be long now til summer and you can get outside once again. I hope you stay well; be here again next week. If you have any newsworthy items please give me a call at 488-2399.

Coboconk News

by Shiela Lake

It's strawberry time again and once again the Baddow ladies are busy preparing for their annual big event, the Strawberry Supper.

The supper starts at 1 p.m. on July 3 at the Baddow Community Hall. To get there turn off Highway 35 at Writz Dairy and the hall is just a few yards up the road. Prices are reasonable and it is a nice change from cooking on what, hopefully, will be a clear, hot summer afternoon!

Hilda Chynoweth and daughter enjoyed a few days away from it all last week at Camp Bordon, visiting daughter Della, at Shelbourne and, in general, taking in some shopping and browsing about.

Hilda and family operate the "We, Us and Company" gift and craft shop just west of Norland.

Winners in euchre over the past two weeks are: ladies' first, Barbara Kenneth, 78, second, Lulu Brentnell, 78, consolation went to Inge Wassell, 43. The most lone hands were four. Gent's first, Gord Jewell, 78, second, Annie Watson, 74, consolation went to Alice Madill, 45. The most lone hands, Leslie Thomas with three. In bridge, first went to Lyle Larmour with 5050, second went to Eve Grills with 4660 and the consolation went to Marion Holland with 1710.

In the second week of euchre ladies first, Ruby Luff, 75, second, Evelyn Manley, 73, and consolation, Marion West, 40. The most lone hands went to Barbara Kenneth with three. Gent's first, Judy McDonald, 73, second, Jack Sims, 73, the most lone hands went to Jack

Sims with five and consolation, Gordon Madill, 47. In bridge, Garnet Graham took first with 280 points, second, Alex Gagne with 4250, third, Steve Steeves with 1100.

I would like to extend sincere sympathy to the family of the late Mrs. Marg James who died last week, and sympathy is also due to Mrs. Dorothy Graham whose daughter died very suddenly, and to the Boyce family.

In a happier note I'd like to say congratulations to newlyweds, Garth and Karen Yeo-nee Hachie. Best wishes and may you have a long married life.

Mr. and Mrs. Calvin Valliers of Berrin Spring, Michigan were visitors of Mrs. Ruth Fralick and Clara last Monday. Other visitors were their grandson and nephew Philip Schell of Toronto.

Mrs. Marilyn Sider and girls of Lindsay visited her parents Mr. and Mrs. Everett Cameron last week-end.

Mr. Lloyd Faulkner and Lawrence Davis of Belleville visited Mr. and Mrs. Ross Faulkner a week ago.

The choral group, The Happy Wanderers, sang at the seniors homes in Beaverton and Cannington last week.

Trent Severn News

The levels of reservoir lakes in Haliburton declined only slightly to 95.5 per cent on June 14 from 95.9 per cent a week earlier. After these readings were taken a further rain of about 40 millimetres came to the area raising most lake levels by 2 to 7 centimetres. In some cases this began to exceed 100 per cent so reservoir outflows have been increased from some lakes to expell the surplus. This has increased the Gull River flow at Norland to about 30 cubic metres

per second compared to the minimum of about 13.

Kawartha Lakes similarly rolled up larger surpluses due to the heavy rain so Otonabee River flow coming from these lakes was increased to over 100 cubic metres per second. A similar situation occurred on Rice Lake and the Trent River downstream of it where large increases in flow were needed to diminish the surplus.

On Lake Simcoe-Couchiching the rain added 4 or 5 centimetres, which required that the flow from this lake be increased to three times the Monday flow on Thursday, June 17, by Trent-Severn Waterway operators.

Rain is still forecast for this week-end so an early end to the high flows is unlikely. Hopefully the rains will not get severe enough to force closure of the locks due to hazardous currents in river reaches. This happened in July 1967 and was threatening in July 1980.

Companies asked to invest

Canadian companies have been asked to consider investing in new industry to use excess wood in central and southeastern Ontario.

The forests in the area produce an estimated one million cords of wood more than present industry can use.

Lutterworth holds meeting

At the regular meeting of the Township of Lutterworth council on June 1, the following matters were discussed:

The land severance 'Application for Consent' H-54/82, submitted by Don Nye to the Provisional County of Haliburton, regarding Part of Lots 7 and 8, in Concession 11 - Denna Lake, Hwy. 35, was recommended by council for consent.

Don Nye attended before the members of council to provide explanation, and to answer any questions.

Land severance 'Application for Consent' H-63/82, submitted by Ingram Wessell to the Provisional County of Haliburton, regarding Part of Lots 28 and 29, Concession 3 - Hwy. 35/Gull River, was recommended by council for consent.

Ingram Wessell also attended before Council.

Dianne Warnes appeared before the Council in the matter of land severance 'Application for Consent' H-300/80 (pursuant to prior Land Severance 'Application for Consent' No. H-188/79), recommended by the Municipal Council on November 20, 1980 and approved by the County Land Division Committee.

Warnes advised Council concerning details of the preliminary survey information, and her proposed revisions to the preliminary survey. Council noted that the lot proposed to be severed must contain not less than five acres, which is the minimum lot area required in the Rural (RU) zone classification. Provided that the minimum lot area of the parcel proposed to be severed has an area of at least five acres, council advised Mrs. Warnes that it had no objection to the revisions to her original proposal for land severance.

On behalf of Bell Canada, representatives attended the Council meeting.

It was noted that Lutterworth Township is serviced by three exchanges - Minden, Coboconk and Kinmount. Concerning upgrading of services already completed by Bell Canada, council was informed about the 'Non-urban Service Improvement Program', a four

year program undertaken to reduce the number of subscribers per telephone line. This program provides private and two party line service upon demand.

The establishment of the Lutterworth 'locality rate area', which will provide a basic service offering single or two-party lines, subject to an additional charge was explained. Beyond this area, the basic service offering is a four-party line.

Improvements being undertaken include operations to replace carbonized protectors in an effort to counteract lightning and electrical storm effects. Protectors act somewhat like a fuse, but the new 'gas tube protector' absorbs the power surge and adjusts back to normal on its own. Other improvements were discussed.

In the matter of future expansion plans, Council was advised Bell Canada has a large list of unserved areas and the existing economic climate has forced Bell Canada to adopt a slower pace in regard to expansion of telephone service. But long-range forecasting is subject to change and should not be considered as an absolute.

Council authorized the road superintendent to place an order for 15 imperial tons of liquid calcium chloride and for 25 imperial tons of flake calcium chloride with the supplier providing the most reasonable quotation.

Council agreed to accept the portion of "Old Section" of Hwy. 35, located in Part of Lot 14, in Concession 8, linking the 'New' Hwy. 35 with the "Valentine" Road. The "Old Section" of Hwy. 35 would be reopened, the roadway assumed by the Ontario Ministry of Transportation and Communications, and in turn transferred by the MTC to the township.

Council authorized the Reeve and Clerk to execute a direction dated June 1, 1982 authorizing the closing funds to be made payable to Bishop and Rogers, In Trust, for the township's conveyance to

Wahlroth of Part 1, Plan 19R-2489, a closed portion of the 66 foot unopened original shoreline road allowance fronting Part of Lot 24, Concession 5 and Part of Lot 25, Concession 4, and adjacent Moore's and East Moore's Lakes and to execute the necessary deed.

Similar arrangements were made regarding the conveyance to Motycka of Part 1, Plan 19R-2527, a portion of the 66 foot unopened original shoreline road allowance fronting Part of Lot 16, Concession V, and adjacent Clear Lake; the conveyance to Lloyd of Part

2, Plan 19R-2339, a portion of the 66 foot unopened original shoreline road allowance fronting Lot 19, Concession VII, and adjacent Gull Lake (Miner's Bay).

Council adopted a resolution supporting an application by Kilcoo Camp Limited and John Latimer to obtain a Certificate of Approval from the OME for the continued use of an existing private waste disposal site, located in Part of Lot 11, in Concession 10.

Thirty-five building permits had been issued as of June 1, 1982, council was advised.

Stanhope holds council

At the regular meeting of Stanhope Council on June 9, the following matters were discussed:

Council approved severance application number H 62/82, an application confirming existing occupational limits.

Council approved payment of a \$65 membership fee to the Chamber of Commerce. Council directed that this fee be spent 50 per cent on the Chamber of Commerce and 50 per cent on the Tourist and Convention Bureau.

Council approved a \$50 donation to the Hyland Crest Senior Citizens Home to help in offsetting the costs of the "Over 70's Dinner" to be held on June 22.

The Township of Stanhope decided to petition the provincial government to reconsider the provision in the

recent budget that relates to sales tax on items purchased by public agencies. This provision will have a devastating financial affect on municipalities and school boards in Ontario and the introduction of this provision, after most current budgets have been adopted, is most unfair to public agencies.

Council advised John Buchler the solicitor acting on behalf of Mrs. Turner and Mr. McNairn for a proposed lakeshore allowance road closing on part lot 10, concession 4 that a more detailed plan is required. It should outline the properties as they relate to each other and in particular how the lot lines will extend to the present high water mark.

Agreement by abutting owners will also be required

Weeds damage crops

Weeds cause more than one-third of all damage to crops, says Rudy Brown, head of the horticulture and biology section at the Ridge-town College of Agricultural Technology.

Unlike insects and diseases which occur sporadically, weeds appear every year and are more easily taken for granted.

Annuals, such as ragweed, crabgrass, foxtail, or pigweed, can reduce a yield by 20 percent, while perennial weeds can be more devastating, sometimes destroying more than 30 per cent of a crop.

Weeds may become alter-

nate hosts for insects and diseases or can contaminate a crop, reducing its quality. Nightshade, for example, can discolour white beans which must then be discarded. Other weeds can cause poor harvesting conditions, resulting in inefficient grain recovery.

Between 75 and 80 per cent of all chemicals used in agriculture are designed for the control of weeds, says Brown. There has been a lot of progress in the development and testing of herbicides in the last few years, but the complexity of weed control and the large number

Much of this fibre is in smaller diameter or lower quality logs and is not presently used because there is no suitable processing facilities in the area.

The fibre, which might be obtained from both public and private lands, is suitable as pulpwood or as raw material for products such as particle-board, according to Natural Resources minister Alan Pope.

The Minister has sent letters to 19 major forest com-

panies, inviting them to consider ways to use this fibre. He will also consider joint studies with interested companies to determine under what conditions construction of new facilities in the area will be economically feasible.

Projects which might provide employment opportunities in the Bancroft area are of particular interest, Pope said. Many new jobs could result if plant and equipment can be put in place to use the excess wood, he noted.

ONTARIO GOVERNMENT TENDER

ONTARIO GOVERNMENT AUCTION

WATERFRONT RESIDENCE - MINDEN

The Ministry of Government Services will offer a two bedroom frame residence located on Anson Street, Minden for sale by Public Auction on July 9, 1982 at 12:00 Noon.

The property is fully serviced with municipal sewer and water and is within minutes walking distance from the downtown area.

The site is approximately 0.18 ha (0.47 acre) having a frontage of approximately 32 m (106 feet) on the Gull River. The site is described as Parts 1 and 2 on Reference Plan 19R-1164 and is subject to an easement for a sanitary sewer over Part 1.

The residence will be open for inspection from 12:30 p.m. to 3:30 p.m. Thursday, June 30, 1982.

TERMS AND CONDITIONS

1. A deposit of \$2,000 cash or certified cheque made payable to the Treasurer of Ontario is required on the date of sale. The balance is payable within 90 days from the date of acceptance of the successful bid.

2. The Ministry gives no warranty expressed or implied as to the condition of the property or as to the purpose for which it may be used. The property is being sold on an "as is" basis and it is the purchaser's responsibility to examine the condition of all structures and systems. Zoning of land use information may be obtained from the appropriate Municipal authorities.

3. Sale is subject to a reserve price established by the Ministry.

4. No employee of the Ontario Government may participate in this sale.

NOTE: For further information please contact David Wright, Ministry of Government Services, Toronto, Ontario, Telephone (416) 965-4770. Please quote file number 30-260-81 Minden-1.

AFFORDABLE HOUSING: Very clean 2 bedroom home or 4 season cottage. Close to Drag Lake. School bus. \$30,900. Lynn Craigmyle.

HALLS LAKE: A lovely log cabin plus bunkie snuggled among the pines on very attractive lot with year round accessibility, offered at \$33,000. Marg Harrison.

HALIBURTON LAKE: Very attractive, nicely wooded lot having south west exposure, ready to build your cottage, with trailer to stay in while you build. Septic tank for three bedroom cottage already in, docks and water pressure system. Just reduced to \$19,500. Marg Harrison.

FAMILY COTTAGE: with lots of privacy, Crown land on both sides of 230 ft. frontage. 4 bedrooms, sunporch, boat and motor, appliances, western exposure, etc. Popular large lake. A true value at \$35,900. Charlie Smith.

HOME AND WORKSHOP PLUS STORE: Very well kept home with 13 per cent financing in Eagle Lake. Large wooded property backing onto Gull River for swimming and relaxing afternoons. Large kitchen and 3 1/2 bedrooms. A pleasure to show. \$49,500. Charlie Smith.

HOME ON HWY. 530: 3 bedroom home overlooking Maple Lake, full basement with walkout. Landscaped lot, screened room in garden. Asking \$42,000. Lenore Pristol.

HALIBURTON LAKE: South Bay, landscaped lot, sand beach, 4 bedroom insulated cottage. Asking \$37,500. Henry Pristol.

SERVICED WATERFRONT LOTS: Moose Lake, \$19,000, Eagle Lake, \$21,900, Pine Lake, 125 ft., 3 1/2 acres, \$20,000. Henry Pristol.

CRANBERRY LAKE: 3 bedroom cottage on 200 ft. frontage, well treed, privacy, asking \$32,900. Lenore Pristol.

EAGLE LAKE: 5 year old side split, 3 bedroom, brick fireplace in livingroom, broadloom throughout, partial basement with rec room, just 12 miles from Haliburton. \$49,900. Barbara Callard.

LAKE NEGAUNEE: Well treed waterfront lot on Quiet lake, year round access. Sandy and rocky shoreline. Faces south, \$12,900. Barbara Callard.

WILBERFORCE AREA PROPERTIES

705-448-2311, 9 a.m. to 5 p.m. Mon. - Sat.

BUCKSKIN LAKE: 3 bedroom well kept cottage with full deck, mature trees, sand beach, adjoining crown land, easy winter access. Only \$24,900. Melanie Hamilton.

PREFER TO BUILD: How about a 2.2 acre building lot, with southern exposure on beautiful lake, 179 ft. frontage with 35 miles of boating. \$17,000. Melanie Hamilton.

12 PER CENT FINANCING: SOMETHING SPECIAL: spacious square timbered lakeshore retirement or summer home. Offering 1,500 sq. ft. of rustic charm and elegant country living. Generous terms. Asking \$95,000. Ben Waterton.

WILBERMERE LAKE: Very desirable building lot, ideal for cottage or permanent home. Priced right for quick sale. \$12,500. Ben Waterton.

DARK LAKE: Very neat 2 bedroom home, sun porch, 4 pc. bath, F.A.O., acorn fireplace, 85 ft. frontage with excellent swimming, appliances included and some extras. \$42,600. Ken Sanderson.

GRACE RIVER ROAD: Yearly access, extremely pleasant 2 bedroom cottage with large deck, electric heating, some furnishings included. Shared access to river. \$18,900. Ken Sanderson.

"WHERE THE ACTION IS"

Stanhope township council meets

from page 12

prior to a survey of property. Council advised Glenn Manning the solicitor acting on behalf of Ms. Hardy on a proposed lakeshore road allowance closing that council confirms its decision as outlined in a letter dated January 15 and will only consider stopping up and closing a portion of the allowance.

The Clerk was directed to make application for the subsidy allotted by the Ministry of Municipal Affairs and Housing under the 1982 Provincial Incentive Program.

Council accepted the 1982 general estimated budget totalling \$246,165. Council also passed a by-law to levy and collect taxes for 1982 in the township.

Council authorized the Maple Lake United Church to cross the Airport Road with a water line at a location approved by the road superintendent and under the

guidance of the road superintendent.

The Clerk was directed to forward a copy of a letter received from the Ministry of Transportation and Communications regarding property on part of Lot 12, concession 6 to Andy Murdison, the president of the Boskung Lake Cottage Association for further comment by the Association. Council will await these comments prior to any further decision being taken.

The next regular meeting of council will be held Wednesday, July 7 at 8:30 a.m.

Council appointed Stan Moore to the Airport Committee from June 9, 1982 for the balance of the term ending December 31, 1982. Council approved general accounts for May totalling \$17,909.46; May welfare accounts totalling \$2,942.71 and a road voucher totalling \$22,648.01.

Weeds harder to control in small crops

from page 13

of varieties of weeds create a constant request for further information.

It is especially difficult to develop chemicals to control weeds in smaller crops, he says. Testing herbicides for a relatively small crop like

tomatoes is expensive, while the potential for return on investment is limited. Research money from government and chemical companies is more likely to be used to test herbicides on larger hectareage crops of the more popular grain crops.

Most herbicides are tested for at least six years and research is continually underway to examine combinations of herbicides to improve weed control while decreasing the amount of herbicide used.

But the best way to control

weeds, Brown says, is with a total weed control system. Using herbicides, cultivation or any combination of weed control methods, farmers can increase their efficiency and reduce their reliance on one method of killing weeds.

New Ontario maps feature readability

The 1982-83 Ontario Road Map featuring greater readability and information will be available in mid-June, the Ontario Ministry of Transportation and Communications has announced.

Major change this year is the blow-up map portion of the "Golden Horseshoe" area with increased detail. Information features were deleted from the regular portion of the map to highlight the freeway and highway network in this highly-populated area.

A significant addition includes a blue facsimile sign on the map indicating the 100 kilometre stretch of Highway 17 between Nipigon and Thunder Bay renamed the

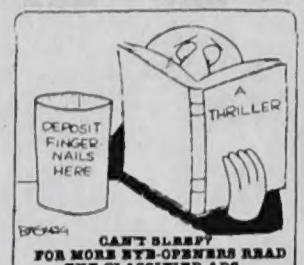

"Terry Fox Courage Highway" last autumn. As well, the historical Talbot Trail-Highway 3 route through southwestern Ontario is marked with a special symbol.

More information has also been added to map enlargements of Sarnia, Kitchener, North Bay, Timmins and Sault Ste. Marie, showing highway interchanges and bypass routes.

Another inclusion is MTC's new interchange numbering system keyed to the distance travelled; and all multi-lane divided free-

ways are highlighted in yellow, enabling map users to easily pick them out.

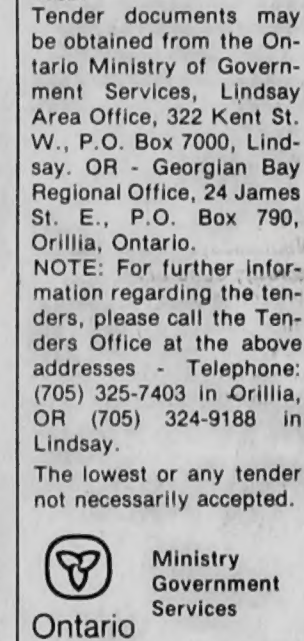

Other additions include the symbol "P" marking carpool parking areas at freeway interchanges; the OPP badge symbol pinpointing police detachment sites;

kilometre distances printed in red; and the designation of urban and built-up areas with the colour pink.

Maps are distributed through both the Ministry of Tourism and Recreation as well as MTC.

ONTARIO GOVERNMENT TENDER
MECHANICAL CONTRACTORS
Energy Retrofit on Alterations to Steam Supply and Heating System, Alterations to Domestic Hot Water Heater, Supply Line and Method and Modifications to Electrical System at the Leslie M. Frost Resource Centre, DORSET, Ont.

To the Editor:
Your view as to how a self governing society should operate is twisted. You wrote "a town council should not feel that it has to grant an application just because it is presented in good faith and the applicant agrees to meet certain conditions."
What? Would it be alright by you if council used its "discretionary power" in regard to licences and permits to deny someone a building permit even though their application met in all respects the regulations pertaining thereto?
Shake your head!
Next you will gladly pay the parking ticket you got even though you put your nickel in. Discretionary power is to be used only within the regulations which have been agreed upon by a majority of the people.
Furthermore, the notion that council should outlaw arcades is ridiculous. We're denying young people another chance to make responsible decisions as to how to spend their time and money. More bingo, please. We're freeing parents from the responsibility of passing values on to their children.
We're breeding the ability to make decisions out of the next generation.

Andres Poldas

To the Editor:
The people of Canada have once again very helpfully and warmly, responded to the 1982 National Red Shield Appeal (NRSA), in spite of less than ideal economic factors in many regions.
We are confident that when all reports are finalized this Centenary Year will establish new standards of success for the NRSA.
Many thousands of volunteers have given magnificently of their time, interest and practical involvement. Without such assistance a National fund raising effort of this magnitude would simply have been impossible.
Our materials carried the phrase - "That's the Spirit". Your helpful participation has personalized that 'spirit' of caring and concern. Please accept our sincere appreciation. We solicit your continuing interest in all our endeavours.
God bless you!

Frederick J. Halliwell,
Lieut. Colonel
National Campaign Director,
Toronto, Ontario.

GOVERNMENT NOTICE UNDER THE MINING ACT

Lands and/or Mining Rights to be Forfeited for Acreage Tax Arrears

PURSUANT to the provisions of the Mining Act, R.S.O. 1980, Chapter 268, Subsection 2, Section 212, the following list of lands and mining rights in respect of which acreage tax, penalties and costs to December 31, 1981 imposed by the said Act, are two years or more in default, notice is hereby given that unless the amount due shown is paid on or before December 31, 1982, on the day following shall be forfeited to and vested in the Crown, but shall not be open for prospecting, staking out, sale or lease until published in one issue of THE ONTARIO GAZETTE. (This is not a tax sale. The lands cannot be purchased by paying the taxes).
Those lands and mining rights forfeited to and vested in the Crown and published in one issue of THE ONTARIO GAZETTE during the month of May, 1983, shall be open for prospecting, staking out, sale or lease at and after 7 o'clock standard time in the forenoon of June 1, 1983.
Communications regarding this matter should be directed to the undersigned at the Whitney Block, Parliament Buildings, Toronto.

W.T. Foster
Deputy Minister of Natural Resources

PROVISIONAL COUNTY OF HALIBURTON
